### Objectives:

Provide participants with a basic understanding of what ArcGIS is and its core functionalities.

Help participants learn how to manage spatial data effectively within the ArcGIS environment, including data input, storage, manipulation, and output

Teach participants how to create maps and visualize spatial data using ArcGIS, including symbology, labeling, and layout design

Depending on the workshop's focus, provide an overview of how ArcGIS can be used for remote sensing and image analysis tasks, including classification, change detection, and image interpretation

### Outcomes

1. Participants will become proficient in using ArcGIS software, including ArcMap, ArcGIS Pro, and ArcGIS Online, depending on the focus of the workshop.

2. Participants will learn how to effectively manage spatial data within the ArcGIS environment, including data input, editing, organization, and storage.

3. Participants will be able to create visually appealing and informative maps using ArcGIS, including customizing symbology, labeling features, and designing map layouts.

4. Participants will learn how to leverage web GIS platforms, such as ArcGIS Online, to share, publish, and collaborate on spatial data and maps over the internet.

5. Participants will enhance their problem-solving abilities by applying GIS concepts and techniques to real-world scenarios and case studies presented during the workshop.

### Course Content

- Importing and exporting spatial data
- Data sources and acquisition
- Basic editing techniques (digitizing)
- Creating and customizing maps
- Symbolization and thematic mapping
- Labeling features and adding annotations
- Designing map layouts and templates
- Introduction to remote sensing concepts
- Image interpretation and classification
- Change detection and image analysis techniques
- Integration of remote sensing data with GIS
- Practical exercises and tutorials to reinforce concepts learned
- Independent or group projects to apply GIS skills to real-world scenarios

**About college**

Eswar College of Engineering was established during the academic year 2008 -09 and sponsored by Shaik Dada Saheb Charitable Trust. with a vision of imparting futuristic technical education and instill high patterns of discipline in order to set global standards and making the student technologically superior and ethically strong. They young and dynamic promoters have selected this rural area with lot of foresight. The Institution is spread over 22 acres of lush Greenland scape

and located at 5<sup>th</sup> km stone on the Narasaraopet-Chilakaluripet Road. The Institution offers the UG Courses B.Tech-CIVIL, EEE, ECE, CSE, AME, ME. PGCourses M.Tech-PI&ID, DFC, CSF, CAD/CAM&MBA. The tourist places nearby are Kotappakonda, Amaravathi, Suryalanka Beach. Eswar College of Engineering is having MOU with International Institute of Information Technology (IIIT-Hyderabad) and introduced CIT Programme for students. Digital Class facility is also provided in association with Manipal K12, Bangalore, every first college in Andhra Pradesh

**About department**

ESWAR has a highly-specialised Civil Department that exposes students to a broad range of subjects involving advanced Civil engineering and its application in industry. The curriculum relies heavily on industry-academia interaction and responds to the current needs and trends in the construction industry. The Department of Civil Engineering is established in 2008. It offers B.Tech programme with a student intake of 60.

**Vision:**

To impart knowledge and excellence in Civil Engineering and technology with global perspectives to our students and to make them ethically strong engineers to build our nation.

**Mission:**

- To produce Civil Engineers of high caliber, technical skills and ethical values to serve the society and nation.
- To make the department a centre of excellence in the field of civil engineering and allied research.

### Objectives:

Attendees should learn fundamental modelling techniques in Revit, such as creating walls, floors, roofs, ceilings, doors, windows, and other architectural elements.

The workshop should introduce participants to the concept of BIM and how Revit facilitates the creation of intelligent, data-rich models.

The workshop should cover methods for collaborating with other project stakeholders, such as architects, engineers, contractors.

The workshop may introduce participants to parametric design principles in Revit, allowing them to create intelligent building components that respond to changes in design parameters.

### Outcomes

1. Attendees should be able to create accurate and detailed 3D models of architectural designs using Revit, including building geometry.

2. Participants should be able to produce high-quality construction documentation from their Revit models, including plans, elevations, sections, schedules.

3. Participants should develop a strong understanding of the Revit software, including its interface, tools, and capabilities specific to architectural modelling.

4. Participants may develop basic skills in parametric design within Revit, allowing them to create intelligent building components.

5. Collaborate with other project stakeholders, such as architects, engineers, contractors, and clients, by sharing Revit models.

### Course Content

- Overview of Revit software and its capabilities
- Introduction to the principles of BIM
- Navigating the Revit user interface
- Setting up a new project
- Working with complex building forms and geometries
- Creating custom families and components
- Designing map layouts and templates
- Introduction to remote sensing concepts
- Image interpretation and classification
- Sharing and collaborating on Revit models
- Coordinating with other disciplines using linked models
- Establishing efficient workflows and best practices
- Managing project settings, views, and sheets
- Tips for optimizing performance and productivity in Revit

**Objectives:**

This workshop aims at imparting job-oriented training on PCB Design from an industry perspective. By providing software workshop to students, they will get idea on how to design in manual and auto routing PCBs with DIP and SMT components. By using this knowledge, they can develop simple real time projects. In this workshop we will use software for designing circuits.

**Outcomes:**

- Understanding Design Principles
- Hands-on Experience
- Understanding Problem-Solving Skills
- Professional Development & Skill Development

**Course Content**

- Introduction of PCB.
- Software Installation (Live wire, PCB Wizard, EDA, Eagle)
- 555 timers, Sensors
- Interfacing with sensors
- Battery saver with manual and auto routing.

### About college

ESWAR College of Engineering was established during the academic year 2003-04 and sponsored by Shriak Dada Sahib Charitable Trust with a vision of imparting futuristic technical education and instill high patterns of discipline in order to set global standards and making the students technologically superior and ethically strong. The young and dynamic promoters have selected this rural area with lot of foresight. The Institution is spread over 22 acres of lush green landscape and located at 5<sup>th</sup> km stone on the Narasaraopet Chulakalurieta Road. The Institution offers the UG Courses B.Tech-CIVIL, EEE, ECE, CSE, AME, ME, PG Courses M. Tech-PLAD, DECS, CSE, CAD/CAM & M.B.A. The tourist places nearby are Kotappakonda, Anaravathi, Suryalanka Beach. Eswar College of Engineering is having MOU with International Institute of Information Technology HIT-Hyderabad and introduced CIT Programme for students Digital Class facility is also provided in association with Manipal K12, Bangalore, the very first college in Andhra Pradesh.

### About department

The Department of Electrical & Electronics Engineering is established in 2008 and offering B. Tech with the intake of 60 seats in the academic year 2008. Department is also offering M. Tech in Power Electronic and Electrical Drives from the academic year 2014 with the intake of 18 seats.

### Report of the Program

**Program Name:** A THREE-DAY RESEARCH WORKSHOP ON PCB DESIGN SOFTWARE.

**Dates:** 23/08/2018 to 25/08/2018

**No of days:** 03

**Room no:** 120

**No of participants:** 46

**Resource Persons:** M. Jyoshitha,

Trainer & Developer, APSSDC, Vijayawada

#### Topics covered:

- Introduction of PCB.
- Software Installation (Live wire, PCB Wizard, EDA, Eagle).
- 555 timers, Sensors.
- Interfacing with sensors.
- Battery saver with manual and auto routing.

#### Program outcomes:

- 1) Understanding Design Principles.
- 2) Hands-on Experience.
- 3) Understanding Problem-Solving Skills.
- 4) Professional Development & Skill Development.

announcement - Requested

We are pleased to inform you that the department of Electrical and Electronics Engineering, ESWAR COLLEGE OF ENGINEERING is organizing a three-day Research workshop on "EMBEDDED SYSTEMS" from 18/03/2019 to 23/03/2019. The details are furnished in the enclosed brochure.

We request you to give wide publicity among the students by displaying the brochure. I further request you to encourage your students to participate in this workshop.

Thanking you for your kind co-operation and looking forward to participate more from your college.

Yours truly,

**Objectives:**

Today, the demand for the Embedded system (ES) is very high. So ES are devices used to control, monitor, assist the operation of equipment, machinery, or plant. Embedded chips are nonprogrammable microcircuits hardwired into other pieces of equipment.

**Outcomes:**

- Functionality
- Efficiency
- Real-time operation
- Safety and reliability
- Embedded systems are often optimized for efficiency in terms of power consumption, processing speed, and resource utilization. This efficiency helps improve the overall performance and reliability of the devices or systems they power.

**Course Content**

- Introduction to Embedded systems
- Embedded e Programming Language
- Keil, Proteus Software
- Interfacing devices with Microcontroller
- Button Interfacing
- Relay, LCD Displays
- DC Motors
- IR sensor, Timers Counters
- LED, UART.

### Department of Electrical and Electronics Engineering

#### Report of the Program

Program Name: A ONE WEEK RESEARCH WORKSHOP ON EMBEDDED SYSTEMS.

Dates: 18/03/2019 to 23/03/2019

No of days: 03

Room no: 120

No of participants: 44

Resource Person: M. Jyoshitha,

Trainer & Developer, APSSDC, Vijayawada

#### Topics covered:

- Introduction to Embedded systems
- Embedded c Programming Language
- Keil, Proteus Software
- Interfacing devices with Microcontroller
- Button Interfacing
- Relay, LCD Displays
- DC Motors LED, UART
- IR sensor, Timers Counter

#### Program outcomes:

- Functionality
- Efficiency
- Real-time operation
- Safety and reliability
- Embedded systems are often optimized for efficiency in terms of power consumption, processing speed, and resource utilization. This efficiency helps improve the overall performance and reliability of the devices or systems they power,

Dear Sir/Madam

Sub: A **One-day Research Seminar on “Wind Energy”** –  
announcement – Requested

We are pleased to inform you that the Department of Mechanical Engineering, **ESWAR COLLEGE OF ENGINEERING** is organizing a **One-day Research Seminar on “Wind Energy”** on 25/02/2019. The details are furnished in the enclosed brochure.

We request you to give wide publicity among the students by displaying the brochure. I further request you to encourage your students to participate in this workshop.

Thanking you for your kind co-operation and looking forward to participate more from your college.

Yours truly,

## OBJECTIVES:

### INCREASE THE RATE OF WIND ENERGY GROWTH

The production of wind energy reduces reliance on fossil fuels and consequently reduces fossil-driven CO<sub>2</sub> emissions, but a given CO<sub>2</sub> reduction is more effective in mitigating global warming if made earlier than later. Wind energy growth rate will depend on cost (see RO<sub>2</sub>) but it will also depend on other factors, including government policy, public perception, our manufacturing base, and the rate at which local and national transmission is reinforced.

## OUTCOMES

Wind energy is the power generated by the wind. It is one of the earliest energy sources used by mankind and is now the most well-established and effective renewable energy source.

## COURSE CONTENT

Introduction to wind energy, the wind resource and its characteristics.  
Wind turbine types, configurations, components, design of machines and wind farms.  
Wind turbine aerodynamics.  
Dynamics, aeroservoelasticity and control of wind turbines.  
Introduction to off-shore wind, the off-shore environment, support structures, dynamics.  
Introduction to electrical systems and grid integration.

## About college

Eswar College of Engineering was established during the academic year 2008 -09 and sponsored by Shaik Dada Sabeh Charitable Trust, with a vision of Imparting futuristic technical education and instill high patterns of discipline in order to set global standard and making the students technologically superior and ethically strong. They young and dynamic promoters have elected this rural area with lot of foresight. The Institution is spread over 22 acres of lush Greenland scape and located at 5<sup>th</sup> km stone on the Narasaraopet-Chilakaluripet Road. The Institution offers the UG Courses B.Tech-CIVIL, EEE, ECE, CSE, AME, ME, PG Courses M.Tech-PE&ED, DECS, CSE, CAD/CAM & MBA. The tourist places near by are Kotappakonda, Amaravathi, Suryanka Beach. Eswar College of Engineering is having MOU with International Institute of Information Technology IIT-Hyderabad and introduced CIT Programme for students Digital Class facility is also provided in association with Manipal K12, Bangalore, every first college in Andhra Pradesh

## About department

Mechanical Engineering is a core engineering discipline, the concepts of which are prerequisite for every other branch of engineering as rightly reflected by the curriculum framed by reputed universities all over the world. This is precisely the reason for many mechanical engineers to occupy responsible positions practically in every field of activity - Space , Aviation, Power, Defense and of-course the elite Information technology as well .

Modern technological developments covering MEMS, NANO, Biomedical etc have been a part of studies in this field of engineering only. The Department of Mechanical Engineering is established in 2011. It offers B.Tech programme with a student intake of 60

### VISION:

To be regionally, nationally and internationally recognized in providing Mechanical Engineering education, leading to well qualified engineers who are innovative, immediate contributors to their profession and successful in advanced studies.

### MISSION:

1. To educate, prepare and mentor students to excel as professionals.
2. To provide the facilities and environment conducive to high quality education to get diverse careers as well as research in the field of Mechanical Engineering.
3. To improve communication skills to excel in higher studies and placements.
4. To facilitate team work culture and improve the social standards and quality of life of graduates.
5. To improve the research activities of the students

### Department of Mechanical Engineering

#### Report of the Program

**Program Name:** A ONE DAY RESEARCH SEMINAR ON WIND ENERGY

**Date:** 25/02/2019

**No of days:** 01

**Room no:** 223

**No of participants:** 80

**Resource Person:** Mr.M. VENKAIAH, M. Tech, (Ph.D.), Dept. of ME, NEC.

#### • Topics covered:

- Overview of Wind Turbine Components
- Type Certification of Wind Turbines
- Wind Resource Assessment. Design and Layout of Wind Farms
- Site Selection for Wind Monitoring Stations
- Electrical. Control and Protection System in Wind Turbine

**Program outcomes:** Wind is a renewable energy source. Overall, using wind to produce energy has fewer effects on the environment than many other energy sources. Wind turbines do not release emissions that can pollute the air or water (with rare exceptions), and they do not require water for cooling. Wind turbines may also reduce electricity generation from fossil fuels, which results in lower total air pollution and carbon dioxide emissions.

To

The Principal/HOD,

Dear Sir/Madam

**Sub: A Research Workshop on “PAPER BATTERY”–  
announcement – Requested**

We are pleased to inform you that the Department of Mechanical Engineering, **ESWAR COLLEGE OF ENGINEERING** is organizing a **Research Workshop on “PAPER BATTERY”** on **03/09/2018 To 08/09/2018**. The details are furnished in the enclosed brochure.

We request you to give wide publicity among the students by displaying the brochure. I further request you to encourage your students to participate in this workshop.

Thanking you for your kind co-operation and looking forward to participate more from your college.

Yours truly,

R.S.S.RAJU

## OBJECTIVES:

Objectives/Goals When I set out to work on my science experiment, I was very interested in the idea that I could make a paper battery that was ultra thin, and that such a tiny piece of paper could produce voltage. As I continued my research, I knew this was an amazing idea because it was also good for the environment.

## OUTCOMES

Paper-based batteries are applied on the operating principles of conventional batteries such as metal-air and lithium-ion batteries (LIBs), as well as on different energy storage devices such as supercapacitors [63] (See Table 1). With cell components such electrolytes and separators integrated on the paper substrate to create a fully functional paper-based batteries.

**About college**

Eswar College of Engineering was established during the academic year 2008 -09 and sponsored by Shaik Dada Saheb Charitable Trust, with a vision of Imparting futuristic technical education and instill high patterns of discipline in order to set global standard sand making he students technologically superior and ethically strong. They young and dynamic promoters has elected this rural area with lot of foresight. The Institution is spread over 22 acres of lush Greenland scape and located at 5<sup>th</sup> km stone on the Narasaraopet-Chilakaluripet Road. The Institution offers the UG Courses B.Tech-CIVIL, EEE, FCE, CSE, AME, ME, PG Courses M.Tech-PI & ED, DECS, CSE, CAD/CAM & MBA. The tourist places near by are Kotappakonda, Amaravathi, Surylanka Beach. Eswar College of Engineering is having MOU with International Institute of Information Technology IIT-Hyderabad and introduced CIT Programme for students Digital Class facility is also provided in association with Manipal K12, Bangalore, every first college in Andhra Pradesh

**About department**

Mechanical Engineering is a core engineering discipline, the concepts of which are prerequisite for every other branch of engineering as rightly reflected by the curriculum framed by reputed universities all over the world. This is precisely the reason for many mechanical engineers to occupy responsible positions practically in every field of activity - Space , Aviation, Power, Defense and of-course the elite Information technology as well .

Modern technological developments covering MEMS, NANO, Biomedical etc have been a part of studies in this field of engineering only. The Department of Mechanical Engineering is established in 2011. It offers B.Tech programme with a student intake of 60

**VISION:**

To be regionally, nationally and internationally recognized in providing Mechanical Engineering education, leading to well qualified engineers who are innovative, immediate contributors to their profession and successful in advanced studies.

**MISSION:**

1. To educate, prepare and mentor students to excel as professionals.
2. To provide the facilities and environment conducive to high quality education to get diverse careers as well as research in the field of Mechanical Engineering.
3. To improve communication skills to excel in higher studies and placements.
4. To facilitate team work culture and improve the social standards and quality of life of graduates.

**Program Name:** Research Workshop on “PAPER BATTERY”

**Dates:** 03/09/2018 TO 08/09/2018

**No of participants:** 80

**Resource Person:** Dr.K.L.N.MOORTHYA.MREDDY.NRT.

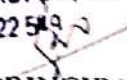

**Topics covered:** A paper battery is basically a device which can act both as a super-capacitor and as a high energy battery. It is a flexible, light weight, ultra-thin energy storage device made up of carbon nanotubes emboldened on paper (cellulose). It is basically formed by combination of cellulose with carbon nanotubes. It consists of infusion of carbon nanotubes with paper consisting of an ionic liquid acting as an electrolyte.

**Program outcomes:** The role of the current collector is to connect the cathode and anode to external circuitry. The ideal material therefore provides high electrical conductivity and low contact resistance. It is also important that the current collector doesn't chemically react or dissolve in contact with the electrolyte.

Respected sir,

Sub: Request approval to conduct A ONE day seminar on  
**NANO TECHNOLOGY - Reg**

The Department of Electronics and Communication Engineering is planning to conduct a ONE day seminar on **NANO TECHNOLOGY** for IV B.Tech ECE students on 16-07-2018 that benefits the students /staff for enhancing their knowledge.The resource person for the seminar is NVNK Suresh kumar ,Assoc.prof ,dept of ECE from TIRUMALA ENGINEERING COLLEGE,Narasaraopet.. We request you to accord the approval and provide the required resources for the smooth conduction of the seminar.

Thanking you sir,

**Objectives:**

The objectives of nanotechnology to learn about nanotechnology based authentication be familiarized with universal electronics communication concepts like expectation, Nanotechnology often shortened to nanotech, is the use of matter on atomic, molecular, and super molecular scales for industrial purpose. The earliest widespread description of nanotechnology referred to the particular technological goal of precisely manipulating atoms and molecules for fabrication of macroscale products, also now referred to as molecular nanotechnology.

**Outcomes**

- 1) An ability to identify formulates and solve complex engineering problems science and mathematics
- 2) An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety and welfare as well as global culture social environmental and economic factors

**Course Content**

**Objectives:**

GPS and GSM based tracking systems are useful in providing exact location of any device they are attached to. In this course you will build a GPS and GSM based tracker using Arduino which can send continuous updates about the position on google maps in your mobile phone or computer while building your project you will learn practically about the working of GPS modules, antennas, GSM modules and mobile communication

**Outcomes**

- Build your GPS and GSM tracker
- Work with GPS modules, antenna and GSM modules.
- Develop the project using Arduino development board
- Implement Arduino programming for functioning of project
- Setup the maps as part of tracking system

**Course Content**

- Micro controller
- GPS module
- GSM modem
- Vehicle tracking system using GPS construction and testing

### About college

Eswar College of Engineering was established during the academic year 2008 -09 and sponsored by Shaik Dada Saheb Charitable Trust, with a vision of imparting futuristic technical education and instill high patterns of discipline in order to set global standard and making the students technologically superior and ethically strong. They young and dynamic promoters have elected this rural area with lot of foresight. The institution is spread over 22 acres of lush Greenland scape and located at 5<sup>th</sup> km stone on the Narasaraopet-Chilakalurpet Road. The Institution offers the Courses B.Tech-CIVIL, EEE, I.C.T., CSE, AME, ME, PG Courses M.Tech-PE & ED, DEC, CS, CSE, CAD/CAM & MBA. The tourist places near by are Kotappakonda, Amaravathi, Surylanka Beach. Eswar College of Engineering is having MOU with International Institute of Information Technology IIT-Hyderabad and introduced CIT Programme for students Digital Class facility is also provided in association with Manipal K12, Bangalore, every first college in Andhra Pradesh

### About department

ESWAR has a highly-specialised Computer Science Department that exposes students to a broad range of subjects involving advanced computer engineering and its application in industry. The curriculum relies heavily on industry-academia interaction and responds to the current needs and trends in the global software industry. The Department of Computer Science Engineering is established in 2008. It offers B.Tech programme with a student intake of 60.

### Vision:

To excel in the emerging fields of computer science of engineering by conducting cutting-edge research, advocating for ethical principles, and addressing societal needs

### Mission:

To provide strong fundamentals and technical skills through effective teaching learning Methodologies, disseminate knowledge by organizing seminars, field visits and workshops  
To develop responsible citizens and professional leaders with high ethical and moral values, who contribute in dissemination of universal science and technology.

### About college

Eswar College of Engineering was established during the academic year 2008 -09 and sponsored by Shaik Dada Sahab Charitable Trust, with a vision of Imparting futuristic technical education and instill high patterns of discipline in order to set global standard and making the students technologically superior and ethically strong. They young and dynamic promoters have elected this rural area with lot of foresight. The Institution is spread over 22 acres of lush Greenland scape and located at 5<sup>th</sup> km stone on the Narasaraopet-Chilakaluripet Road. The Institution offers the UG Courses B.Tech-CIVIL, EEE, ECE, CSE, AME, ME, PG Courses M.Tech-IT, D.DI, CS, CSE, CAD/CAM & MBA. The tourist places near by are Kotappakonda, Amaravathi, Surylanka Beach. Eswar College of Engineering is having MOU with International Institute of Information Technology HIT-Hyderabad and introduced CIT Programme for students Digital Class facility is also provided in association with Manipal K12, Bangalore, every first college in Andhra Pradesh

### About department

ESWAR has a highly-specialised Computer Science Department that exposes students to a broad range of subjects involving advanced computer engineering and its application in industry. The curriculum relies heavily on industry-academia interaction and responds to the current needs and trends in the global software industry. The Department of Computer Science Engineering is established in 2008. It offers B.Tech programme with a student intake of 60.

### Vision:

To excel in the emerging fields of computer science of engineering by conducting cutting-edge research, advocating for ethical principles, and addressing societal needs

### Mission:

To provide strong fundamentals and technical skills through effective teaching learning Methodologies, disseminate knowledge by organizing seminars, field visits and workshops

To develop responsible citizens and professional leaders with high ethical and moral values, who contribute in dissemination of universal science and technology.

To  
The Principal/HOD,

Dear Sir/Madam

Sub: **Three days RESEARCH SEMINAR on Multi Air  
Engines – Requested.**

We are pleased to inform you that the Automobile Engineering department of **ESWAR COLLEGE OF ENGINEERING** is organizing a Three day RESEARCH Seminar on “**Multi Air Engines**” in 28/01/2019 to 30/01/2019. The details are furnished in the enclosed brochure.

We earnestly request you to give wide publicity among the students by displaying the brochure. I further request you to encourage your students to participate in this Seminar.

Thanking you for your kind co-operation and looking forward to participate more from your college.

Yours truly,  
(Mr.R.RAMBABU)

**Objectives:**

The Multi air technology uses a hydraulic system to decouple the intake camshaft from the valves, allowing electronic control of valve timing. It modulates intake valve opening and closing through an electronically controlled solenoid. This allows for improved fuel efficiency, reduced emissions, and increased power.

**Outcomes:**

- 1). Understand various types of I.C. Engines, Cycles of operation and Identify fuel metering, fuel supply systems for different types of engines .
- 2) . Understand combustion phenomena in SI and CI engines and Analyse the effect of various operating variables on engine performance.
- 3). Analyse the performance of Gas Turbine.

**Course Content**

Students will have a broad and fundamental understanding of Internal Combustion Engines. Topics range from an overview of IC Engines and its different types of combustion process in SI Engine.

### About college

Eswar College of Engineering was established during the academic year 2008 -09 and sponsored by Shaik Dada Saheb Charitable Trust, with a vision of imparting futuristic technical education and instill high patterns of discipline in order to set global standards and making the students technologically superior and ethically strong. The young and dynamic promoters have selected this rural area with lot of foresight. The Institution is spread over 22 acres of lush green landscape and located at 5<sup>th</sup> km stone on the Narasaraopet- Chilakaluripet Road. The Institution offers the UG Courses B.Tech-CIVIL, EEE, ECE, CSE, AME, ME, PG Courses M.Tech-PE&ED, DTCS, CSE, CAD/CAM & MBA. The tourist places near by are Kotappakonda, Amaravathi, Surylanka Beach. Eswar College of Engineering is having MOU with International Institute of Information Technology IIII- Hyderabad and introduced CII Programme for students Digital Class facility is also provided in association with Manipal K12, Bangalore, the very first college in Andhra Pradesh

### About department

Automobile Engineering is a core engineering discipline, the concepts of which are prerequisite for every other branch of engineering as rightly reflected by the curriculum framed by reputed universities all over the world. This is precisely the reason for many Automobile engineers to occupy responsible positions practically in every field of activity - Space , Aviation, Power, Defense and of-course the elite Information technology as well.

Modern technological developments covering MEMS, NANO, Biomedical etc have been a part of studies in this field of engineering only. The Department of Automobile Engineering is established in 2011. It offers B.Tech programme with a student intake of 60

#### VISION:

To be regionally, nationally and internationally recognized in providing Automobile Engineering education, leading to well qualified engineers who are innovative, immediate contributors to their profession and successful in advanced studies.

#### MISSION:

1. To educate, prepare and mentor students to excel as professionals.
2. To provide the facilities and environment conducive to high quality education to get diverse careers as well as research in the field of Automobile Engineering.
3. To improve communication skills to excel in higher studies and placements.

#### Report of the Program

**Program Name:** Three Day RESEARCH SEMINAR ON MULTI AIR ENGINES.

**Dates ::** 28/01/2019 to 30/01/2019.

**No of days ::** 03

**Room no ::** 223

**No of participants ::** 24

**Resource Person::** M. VENKAIAH, M.Tech.

Dept of ME , NEC.

**Topics covered ::**

- 1) Introduction about Pollution Less Engines.
- 2) Main parts and details of Pollution Less Engines.
- 3) Working principle of Pollution Less Engines.
- 4) Practice on different types of models on Pollution Less Engines Program

**outcomes ::**

- 1). Stirling engine have two piston that creates a 90-degree phase angle and two different temperature spaces.
- 2) The working gas in the engine is perfectly sealed, and does not go in and out to atmosphere.
- 3) The Stirling engine uses a Stirling cycle, which is unlike the cycle used in normal internal combustion engine.

**Objectives:**

Emitted ,these nano ic engines can be employed as powerful blowers to blow out these gases is a less time saving the lives of trapped miners . We require atleast 5-6 blowers to blow these gases where as two nano ic engines could do the tick in less time..

**Outcomes:**

- 1). Internal combustion engines are machines that use explosions to create power used to move vehicles
- 2). They have a lot of different parts, including cylinders, pistons, crankshafts, and camshafts.
- 3). These parts work together to create a controlled explosion that turns the wheels of vehicles.

**Course Content**

Introduction to Internal Combustion Engines, Basic Introduction to SI & CI engine, Air Standard Cycles and their Analysis, Fuel-Air Cycles and their analysis, Conventional fuels & Alternative fuels, Fossil fuels: Refining & Properties, Analysis of fossil fuels, Fundamentals of SI & CI engine, Engine Ignition System,
