Requested**

We are pleased to inform you that the Department of Mechanical Engineering, **ESWAR COLLEGE OF ENGINEERING** is organizing a **Three Day Workshop on SMART MANUFACTURING** from The details are furnished in the enclosed brochure.

We request you to give wide publicity among the students by displaying the brochure. I further request you to encourage your students to participate in this workshop.

Thanking you for your kind co-operation and looking forward to participate more from your college.

OBJECTIVES:

Smart manufacturing systems (SMSs) have become the focus of attention of some countries and manufacturing enterprises. At present, there are some applications of SMSs in different industrial fields. However, there is still a lack of a unified definition of SMSs and a unified analysis of requirements.

OUTCOMES

The outcome economy is a relatively new economic and business paradigm that promotes focusing on the effects that the use of provided products and services create for customers in their markets, rather than focusing on these products or services themselves from the providers' perspective. This paradigm has been embraced in various fields of business but has not yet been fully integrated with the concept of smart industry. To fill this gap in this vision paper we provide a framework that does make this integration, showing the full structure of customer outcome management in smart manufacturing, from both business and digital technology perspectives.

COURSE CONTENT

Smart manufacturing (SM) is a technology-driven approach that utilizes Internet-connected machinery to monitor the production process. The goal of SM is to identify opportunities for automating operations and use data analytics to improve manufacturing performance.

Report of the Program

Program Name: Three Day Workshop on SMART MANUFACTURING

Dates : 15/02/21 To 17/02/21

No of days: 03

Room no: 223

No of participants: 54

Resource Person: Dr.B. BALAJINAIK Assoc.Prof Dept. Of ME

Topics covered: 1) More opportunities for remote and off-site operational work

2. An increased focus on the partnership between manufacturer and customer

3. Machine health and condition monitoring with sensors

Program outcomes: Engineering knowledge: Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.

2. Problem analysis: Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.

3. Design/development of solutions: Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.

About college Eswar College of Engineering was established during the academic year 2008-09 and sponsored by Shaik Dada Sahib Charitable

Trust, with a vision of imparting futuristic technical education and instill high patterns of discipline in order to set global standards and making the students technologically superior and ethically strong. The young and dynamic promoters have selected this rural area with lot of foresight. The Institution is spread over 22 acres of

lush green landscape and located at 5th km stone on the Narasaraopet-Chilakaluripet Road. The Institution offers the UG Courses B.Tech- CIVIL, EEE, ECE, CSE, AME, ME, PG Courses M.Tech- PE&ED, DECS, CSE, CAD/CAM & MBA. The tourist places nearby are Kotappakonda, Amaravathi, Surylanka Beach. Eswar College of Engineering is having MOU with International Institute of Information Technology IIIT-Hyderabad and introduced CIT Programme for students Digital Class facility is also provided in association with Manipal K12, Bangalore, the very first college in Andhra Pradesh. About department The Department of Electronics & Communication Engineering came into existence in 2001 immediately when the institute was founded. It started with an intake of 60 students which was subsequently raised to 120 over a period of time. It offers 4- year B.Tech degree program in Electronics & Communication Engineering, 2 Year M.Tech degree in Digital Electronics and Communication system with an intake of 18.

Vision: To excel in the emerging fields of electronics and communication engineering by conducting cutting-edge research, advocating for ethical principles, and addressing societal needs

Mission: To provide strong fundamentals and technical skills through effective teaching learning Methodologies, disseminate knowledge by organizing seminars, field visits and workshops. To provide an ambience for research through collaborations with industry and academia. To develop responsible citizens and professional leaders with high ethical and moral values, who contribute in dissemination of universal science and technology.

Respected sir,

Sub: Request approval to conduct a **five days research workshop** on
“**BUILDING DRAFTING USING AUTOCAD**”-Reg.

The department of Civil Engineering is planning to a **five days research workshop** on “**BUILDING DRAFTING USING AUTOCAD**” for II Civil students from 12-04-21 to 17-04-21 that benefits the students /staff for enhancing their knowledge. The resource person for the workshop is Mr V.BRAMESH from Trainer and Developer, APSSDC, Vijayawada. We request you to accord the approval and provide required resources for smooth conduction of the workshop.

Thanking you sir,

To
The Principal/HOD,

Dear Sir/Madam

Sub: A Five days research workshop on “BUILDING
DRAFTING USING AUTOCAD” – announcement –
Requested

We are pleased to inform you that the Department of Civil
Engineering, **ESWAR COLLEGE OF ENGINEERING** is
organizing a “A Five days research workshop on “BUILDING
DRAFTING USING AUTOCAD” from 12-04-21 to 17-04-21. The
details are furnished in the enclosed brochure.

We request you to give wide publicity among the students by
displaying the brochure. I further request you to encourage your
students to participate in this workshop.

Thanking you for your kind co-operation and looking
forward to participate more from your college.

Yours truly,

Objectives:

Familiarizing participants with the AutoCAD software interface, tools, and commands relevant to building drafting.

Demonstrating how to organize drawings effectively using layers and linetypes, ensuring clarity and ease of editing.

Introducing the concept of blocks and symbols to represent common architectural elements and fixtures, promoting efficiency and consistency in drafting.

Providing a basic understanding of 3D modelling concepts in AutoCAD for those interested in exploring architectural visualization or advanced drafting techniques.

Outcomes

1. Participants will learn how to create 3D models of architectural elements such as buildings, structures, and interior spaces using AutoCAD's modelling tools.

2. Participants will learn how to organize 3D models using layers and apply materials to different components to enhance visual representation and realism.

3. Participants may learn how to apply textures and adjust lighting settings within AutoCAD to create more realistic renderings of their architectural models.

4. Depending on the workshop's level, participants may explore more advanced features of AutoCAD for architectural modelling, such as parametric constraints, dynamic blocks, or advanced rendering settings.

Participants may learn how to create 2D documentation from their 3D models, including generating floor plans, elevations, and sections for architectural drawings

6. Participants may learn how to apply textures and adjust lighting settings within AutoCAD to create more realistic renderings of their architectural models.

Course Content

- Introduction to 2D drafting tools and commands
- Setting up drawing units and scales for architectural drafting

- Understanding layers, linetypes, and colors in AutoCAD
- Introduction to 3D modelling in AutoCAD
- Understanding the Cartesian coordinate system in 3D space
- Extruding and revolving 2D objects to create 3D forms
- Creating basic architectural elements such as walls, doors, windows, and roofs in 3D

- Exploring the Material Editor in AutoCAD
- Mapping materials onto surfaces for realistic rendering

- Creating camera views and perspectives for presentations
- Adding entourage and context to architectural models
- Rendering and exporting images for presentations and portfolios
- Creating walkthrough animations of architectural designs

Exploring advanced rendering settings and techniques

<p>About college</p> <p>Eswar College of Engineering was established during the academic year 2008 -09 and sponsored by Shaik Dada Sahab Charitable Trust, with a vision of imparting futuristic technical education and instill high patterns of discipline in order to set global standards and making the student technologically superior and ethically strong. They young and dynamic promoters have selected this rural area with lot of foresight. The institution is spread over 22 acres of lush Greenland seape and located at 5th km stone on the Narasaraopet - Chilakaluripet Road. The Institution offers the UG Courses B.Tech-CIVIL, EEE, ECE, CSE, AME, ME, PG Courses M.Tech-PT&ED, DIC-CSE, CAD/CAM&MBA. The tourist places nearby are Kotappakonda, Amaravathi, Surylanka Beach. Eswar College of Engineering is having MOU with International Institute of Information Technology IIII-Hyderabad and introduced CIT Programme for students. Digital Class facility is also provided in association with Manipal K12, Bangalore, every first college in Andhra Pradesh.</p> <p>About department</p> <p>ESWAR has a highly-specialised Civil Department that exposes students to a broad range of subjects involving advanced Civil engineering and its application in industry. The curriculum relies heavily on industry-academia interaction and responds to the current needs and trends in the construction industry. The Department of Civil Engineering is established in 2008. It offers B.Tech programme with a student intake of 60.</p> <p>Vision: To impart knowledge and excellence in Civil Engineering and technology with global perspectives to our students and to make them ethically strong engineers to build our nation.</p> <p>Mission: To produce Civil Engineers of high caliber, technical skills and ethical values to serve the society and nation</p> <p>To make the department a centre of excellence in the field of civil engineering and allied research</p>	<p>CHIEF PATRONS SRI.SHAIK.MEERAVALI Chairman SRI.SHAIK.KAREEM MOHIDDIN Secretary & Correspondent SRI.SHAIK MASTHAN SHARIF Managing Director</p> <p>PATRON DR.G. A One-day Research Seminar on

“Electrical Distribution System Protection”

(21th, DEC - 2020)

Date: 07-12-2020

To

The Principal/HOD,

Dear Sir/Madam

Sub: A One-day Research Seminar on Electrical Distribution
System Protection – announcement – Requested

We are pleased to inform you that the department of Electrical
and Electronics Engineering, ESWAR COLLEGE OF
ENGINEERING is organizing a one-day Research seminar
on “Electrical Distribution System Protection” on 21-12-2020.
The details are furnished in the enclosed brochure.

We request you to give wide publicity among the
students by displaying the brochure. I further request you to
encourage your students to participate in this seminar.

Thanking you for your kind co-operation and looking
forward to participate more from your college.

Yours truly,

Dr. V. Praveen

Hod - EEE

Objectives:

By providing basics on seminar to students, raise awareness among students about safety hazards associated with electrical distribution systems, such as arc flash events, and the importance of following safety protocols and procedures. To provide students with an overview of protective relaying concepts and functions, including relay coordination and selectivity, to understand how protection schemes are designed and implemented. To provide students with insights into career opportunities in the field of electrical engineering, particularly in the area of protection and control, and encourage their continued learning and professional development in this domain.

Outcomes:

- Understanding of Protection Principles
- Knowledge of Protective Devices
- Fault Analysis Skills
- Arc Flash Hazard Awareness
- Emerging Technologies
- Troubleshooting Techniques & Risk Management Strategies
- Understanding of relevant regulations and standards governing electrical protection such as IEEE, IEC, and NEC codes and ensuring compliance with these requirements.

Course Content

- Introduction to Electrical Distribution Systems.
- Fundamentals of Electrical Protection.
- Types of Electrical Faults.
- Protective Devices & Protective Relaying
- Overcurrent Protection & Earth Fault Protection.
- Integration with Smart Grids

Resource Person:

SRAVANA VENKATA RAVI KUMAR,
Asst. Engineer, APSPDCL, Guntur.

Eligibility:

This course is intended for all B. Tech
EEE students.

About college

Eswar College of Engineering was established during the academic year 2008 -09 and sponsored by Shaik Dada Saheb Charitable Trust with a vision of imparting futuristic technical education and instill high patterns of discipline in order to set global standards and making the students technologically superior and ethically strong. The young and dynamic promoters have selected this rural area with lot of foresight. The Institution is spread over 22 acres of lush green landscape and located at 5th km stone on the Narasaraopet- Chilakalunpeta Road. The Institution offers the UG Courses B. Tech-CIVIL, EEE, ECE, CSE, AME, ME, PG Courses M. Tech- PERED, DECS, CSE, CAD/CAM & MBA. The tourist places nearby are Kotappakonda, Amaravathi, Surylanka Beach. Eswar College of Engineering is having MOU with International Institute of Information Technology IIT-Hyderabad and introduced CIT Programme for students Digital Class facility is also provided in association with Manipal K12, Bangalore, the very first college in Andhra Pradesh.

About department

The Department of Electrical & Electronics Engineering is established in 2008 and offering B. Tech with the intake of 60 seats in the academic year 2008. Department is also offering M. tech in Power Electronic and Electrical Drives from the academic year 2014 with the intake of 18 seats.

Vision: "To be recognized for producing meritorious electrical engineers with research proficiency and social commitment"

Mission:

- Impart quality education with practical based learning opportunities, better classroom, self directed studies.
- Encourage students to participate in various technical and non-technical activities.
- Implement a comprehensive quality assurance system.

About department

The Department of Safety and Health (S&H) typically refers to a governmental or organizational department focused on ensuring the safety and health of individuals within a specific context, such as workplaces, communities, or public spaces. These departments are responsible for developing and enforcing regulations, conducting inspections, providing education and training, and responding to incidents or emergencies related to safety and health hazards.

Vision:

"To be a global leader in providing innovative solutions for sustainable living, empowering communities, and fostering environmental stewardship."

Mission:

"At S&H Corporation, we are committed to delivering high-quality products and services that enhance the well-being of individuals and communities worldwide. Through relentless innovation, responsible business practices, and collaboration with stakeholders, we aim to create value for our customers, employees, and shareholders while contributing to a healthier, more sustainable planet."

One Week Research workshop on

“AIRLESS TYRE”

(17th to 22th MAY-2021)

Date: 15-05-2021.

To

The Principal/HOD,

Dear Sir/Madam

Sub: One week Research workshop on **AIRLESS TYRE –**

Requested

We are pleased to inform you that the Automobile Engineering department of **ESWAR COLLEGE OF ENGINEERING** is organizing a one week Research workshop on **“AIRLESS TYRE”** in 17-05-2021 to 22-05-2021. The details are furnished in the enclosed brochure.

We earnestly request you to give wide publicity among the students by displaying the brochure. I further request you to encourage your students to participate in this workshop.

Thanking you for your kind co-operation and looking forward to participate more from your college.

Yours truly,

(Mr. R. Rambabu)

Objectives:

The main objective of this tyre is to eliminate the tube. In pneumatic tyre the tube holds the air inside it, which is responsible for inflation and bursting of tyre. Airless tyres generally have high rolling resistance and provide less suspension than pneumatic tyres.

Outcomes:

1. Robotic welding stands as a ground-breaking innovation Revolutionizing manufacturing by offering unparalleled Efficiency and productivity.
2. particularly in large-scale projects.
3. Its advantages include superior weld quality, increased output, reduced scrap, and lowered labor costs..

Course Content

Airless tires are often filled with compressed polymers (plastic) rather than air, or can be a solid molded product. Airless tires are attractive to cyclists, as bicycle tires are much more vulnerable to punctures than motor vehicle tires. The drawbacks to airless tires depend on the use.

Resource Person:

1. Dr.V.V.KONDAIAH

To

The Principal/HOD,

Dear Sir/Madam

**Sub: A One week research workshop on “ARCHITECTURAL
MODELLING USING REVIT SOFTWARE” –
announcement – Requested**

We are pleased to inform you that the Department of Civil Engineering, **ESWAR COLLEGE OF ENGINEERING** is organizing “A One week research workshop on **ARCHITECTURAL MODELLING USING REVIT SOFTWARE**” from 01/02/21 to 06/02/21. The details are furnished in the enclosed brochure.

We request you to give wide publicity among the students by displaying the brochure. I further request you to encourage your students to participate in this workshop.

Thanking you for your kind co-operation and looking forward to participate more from your college.

Yours truly,

Objectives:

Attendees should learn fundamental modelling techniques in Revit, such as creating walls, floors, roofs, ceilings, doors, windows, and other architectural elements.

The workshop should introduce participants to the concept of BIM and how Revit facilitates the creation of intelligent, data-rich models.

The workshop should cover methods for collaborating with other project stakeholders, such as architects, engineers, contractors.

The workshop may introduce participants to parametric design principles in Revit, allowing them to create intelligent building components that respond to changes in design parameters.

Outcomes

1. Attendees should be able to create accurate and detailed 3D models of architectural designs using Revit, including building geometry.
2. Participants should be able to produce high-quality construction documentation from their Revit models, including plans, elevations, sections, schedules.
3. Participants should develop a strong understanding of the Revit software, including its interface, tools, and capabilities specific to architectural modelling.
4. Participants may develop basic skills in parametric design within Revit, allowing them to create intelligent building components.
5. Collaborate with other project stakeholders, such as architects, engineers, contractors, and clients, by sharing Revit models.

Course Content

1. Overview of Revit software and its capabilities
- Introduction to the principles of BIM
- Navigating the Revit user interface
- Setting up a new project
- Working with complex building forms and geometries
- Creating custom families and components
- Designing map layouts and templates
- Introduction to remote sensing concepts
- Image interpretation and classification
- Sharing and collaborating on Revit models
- Coordinating with other disciplines using linked models
- Establishing efficient workflows and best practices
- Managing project settings, views, and sheets
- Tips for optimizing performance and productivity in Revit.

About college

Eswar College of Engineering was established during the academic year 2008 -09 and sponsored by Shaik Dada Saheb Charitable Trust.

with a vision of imparting futuristic technical education and instill high patterns of discipline in order to set global standards and making best students technologically superior and ethically strong. They young and dynamic promoters have selected this rural area with lot of foresight. The Institution is spread over 22 acres of lush Green land scape

and located at 5th km stone on the Narasaraopet-Chikaluripet Road. The Institution offers the UG Courses B.Tech-CIVIL, EEE, ECE, CSE, AMI, ME. PGCourses M.Tech-PI&ID, DFC, CSE, CAD/CAM&MBA. The tourist places nearby are Kotappakonda, Amaravathi, Surylanka Beach. Eswar College of Engineering is having MOI with International Institute of Information Technology HIT-Hyderabad and introduced CIT Programme for students Digital Class facility is also provided in association with Manipal K12, Bangalore, every first college in Andhra Pradesh

About department

ESWAR has a highly-specialised Civil Department that exposes students to a broad range of subjects involving advanced Civil engineering and its application in industry. The curriculum relies heavily on industry-academia interaction and responds to the current needs and trends in the construction industry. The Department of Civil Engineering is established in 2008. It offers B.Tech programme with a student intake of 60.

Vision:

To impart knowledge and excellence in Civil Engineering and technology with global perspectives to our students and to make them ethically strong engineers to build our nation.

Mission:

- To produce Civil Engineers of high caliber, technical skills and ethical values to serve the society and nation.
- To make the department a centre of excellence in the field of civil engineering and allied research

OBJECTIVES:

1. To study various types of smart materials used in engineering application
2. To study processing of smart materials
3. To study basics of sensors and its engineering application
4. To study basics of actuators and its engineering application

OUTCOMES

1. By the end of course students will able to
2. Understand various smart material and its importance in engineering application
3. Know various processing technics of smart materials
4. Get knowledge of use of smart material as sensors ad actuators.

COURSE CONTENT

An introduction to the properties, characterization, and applications of various smart materials and structures. This course will cover sensors, actuators, and energy devices based on smart materials, including piezoelectric materials, electroactive polymers, magnetostrictive materials, magnetorheological fluids, and shape memory polymers. The goal is to expose students to fundamentals of smart materials and structures needed for the design and applications in engineering applications.

Report of the Program

Program Name: A ONE DAY SEMINAR ON SMART MATERIALS

Dates: 20/05/2021

No of days: 01

Room no: 223

No of participants: 54

Resource Person: Dr.K.L.N.MOORTHY Assoc.Prof,Dept of ME,A.M.REDDY MEMORIAL COLLEGE OF ENGINEERING

Topics covered: Smart materials are materials that are manipulated to respond in a controllable and reversible way, modifying some of their properties as a result of external stimuli such as certain mechanical stress or a certain temperature, among others. Because of their responsiveness, smart materials are also known as responsive materials. These are usually translated as "active" materials although it would be more accurate to say "reactive" materials.

Program outcomes: 1) SLO 1: Have theoretical knowledge and Experimental verification, characterizing the performance of new structures and materials.(K, A)[DA]

SLO 2: Develop new materials and active composite systems, derived using theoretical predictions to complex structural systems, which generate new capabilities by incorporating enabling new smart material.(K, A)

About college

Eswar College of Engineering was established during the academic year 2008 -09 and sponsored by Shaik Dada Saheb Charitable Trust, with a vision of Imparting futuristic technical education and instill high patterns of discipline in order to set global standard and making the students technologically superior and ethically strong. They young and dynamic promoters have elected this rural area with lot of foresight. The Institution is spread over 22 acres of lush Greenland scape and located at 5th km stone on the Narasaraopet-Chilakalurpet Road. The Institution offers the U.G Courses B.Tech-CIVIL, EEE, ECE, CSE, AME, ME, PG Courses M.Tech-PE&ED, .DFCS, CSE, CAD/CAM & MBA. The tourist places nearby are Kotappakonda, Amaravathi, Suryalanka Beach. Eswar College of Engineering is having MOU with International Institute of Information Technology IIT-Hyderabad and introduced CIT Programme for students Digital Class facility is also provided in association with Manipal K12, Bangalore, every first college in Andhra Pradesh

About department

The Department of Safety and Health (S&H) typically refers to a governmental or organizational department focused on ensuring the safety and health of individuals within a specific context, such as workplaces, communities, or public spaces. These departments are responsible for developing and enforcing regulations, conducting inspections, providing education and training, and responding to incidents or emergencies related to safety and health hazards.

Vision:

"To be a global leader in providing innovative solutions for sustainable living, empowering communities, and fostering environmental stewardship."

Mission:

"At S&H Corporation, we are committed to delivering high-quality products and services that enhance the well-being of individuals and communities worldwide. Through relentless innovation, responsible business practices, and collaboration with stakeholders, we aim to create value for our customers, employees, and shareholders while contributing to a healthier, more sustainable planet."

THREE DAY RESEARCH SEMINAR on “GEOTHERMAL ENERGY”

(04/01/2021 To 06/01/2021)

Date: 02-01-2021.

To
The Principal/HOD,
Dear Sir/Madam

Sub: Three day **Research** seminar on **Geothermal Energy** –
Requested

We are pleased to inform you that the Automobile Engineering department of **ESWAR COLLEGE OF ENGINEERING** is a organizing a Three day Research Seminar on “**Geothermal Energy**” in 04/01/2021 to 06/01/2021. The details are furnished in the enclosed brochure.

We earnestly request you to give wide publicity among the students by displaying the brochure. I further request you to encourage your students to participate in this Seminar.

Thanking you for your kind co-operation and looking forward to participate more from your college.

Yours truly,
(Mr.R.RAMBABU)

Objectives:

Use of geothermal energy avoids the problems of acid rain and greatly reduces greenhouse gas emissions and other forms of air pollution. Potentially hazardous elements produced in geothermal brines are usually injected back into the producing reservoir.

Outcomes:

- 1). Learn the basics of **Geothermal Energy** and its application.
- 2) .Geothermal energy comes from heat in the Earth's core which was generated by the radioactive decay of materials when the planet formed.
- 3). Understand This thermal energy, stored by rocks and fluids at the centre of the Earth, can be use as a renewable energy resource.

Course Content

The course teaches skills in identifying geothermal fields, operating geothermal power plants, and evaluating the sustainability of geothermal energy. The teaching method includes lectures, readings, and case studies.

Resource Person:

I. T.SUBBA REDDY.

Assistant Professor,

About college

Eswar College of Engineering was established during the academic year 2008 -09 and sponsored by Shaik Dada Sahib Charitable Trust, with a vision of imparting futuristic technical education and instill high patterns of discipline in order to set global standards and making the students technologically superior and ethically strong. The young and dynamic promoters have selected this rural area with lot of foresight. The Institution is spread over 22 acres of lush green landscape and located at 5th km stone on the Narasaraopet- Chulakalumpet Road. The Institution offers the UG Courses B.Tech-CIVIL, ITI, ICT, CSI, AME, ME, PG Courses M.Tech-PL&ED, DIC-CSE, CAD/CAM & MBA. The tourist places near by are Kotappakonda, Amaravathi, Suryalanka Beach. Eswar College of Engineering is having MOU with International Institute of Information Technology III- Hyderabad and introduced CII Programme for students Digital Class facility is also provided in association with Manipal K12, Bangalore, the very first college in Andhra Pradesh

About department

Automobile Engineering is a core engineering discipline, the concepts of which are prerequisite for every other branch of engineering as rightly reflected by the curriculum framed by reputed universities all over the world. This is precisely the reason for many Automobile engineers to occupy responsible positions practically in every field of activity - Space, Aviation, Power, Defense and of course the elite Information technology as well.

Modern technological developments covering MEMS, NANO, Biomedical etc have been a part of studies in this field of engineering only. The Department of Automobile Engineering is established in 2011. It offers B.Tech programme with a student intake of 60

VISION:

To be regionally, nationally and internationally recognized in providing Automobile Engineering education, leading to well qualified engineers who are innovative, immediate contributors to their profession and successful in advanced studies.

MISSION:

1. To educate, prepare and mentor students to excel as professionals.
2. To provide the facilities and environment conducive to high quality education to get diverse careers as well as research in the field of Automobile Engineering.
3. To improve communication skills to excel in higher studies and placements.
4. To facilitate team work culture and improve the social standards and quality of life of graduates.
