About college

Eswar College of Engineering was established during the academic year 2008 -09 and sponsored by Shaik Dada Saheb Charitable Trust, with a vision of Imparting futuristic technical education and instill high patterns of discipline in order to set global standards and making the students technologically superior and ethically strong. The young and dynamic promoters have selected this rural area with lot of foresight. The Institution is spread over 22 acres of lush green landscape and located at 5th km stone on the Narasaraopet- Chilakaluripet Road. The Institution offers the UG Courses B.Tech-CIVIL, EEE, ECE, CSE, AME, ME, PG Courses M.Tech-PE&ED, DECS, CSE, CAD/CAM & MBA. The tourist places near by are Kotappakonda, Amaravathi, Surylanka Beach. **Eswar College of Engineering is having MOU with International Institute of Information Technology IIT-Hyderabad and introduced CIT Programme for students Digital Class facility is also provided in association with Manipal K12, Bangalore.** the very first college in Andhra Pradesh

About department

The Department of Electronics & Communication Engineering came into existence in 2001 immediately when the institute was founded. It started with an intake of 60 students which was subsequently raised to 120 over a period of time. It offers 4- a year B.Tech degree program in Electronics & Communication Engineering, 2 Year M.Tech degree in Digital Electronics and Communication system with an intake of 18.

Vision: To excel in the emerging fields of electronics and communication engineering by conducting cutting-edge research, advocating for ethical principles, and addressing societal needs

Mission:

- To provide strong fundamentals and technical skills through effective teaching learning Methodologies, disseminate knowledge by organizing seminars, field visits and workshops.

- To provide an ambience for research through collaborations with industry and academia.

- To develop responsible citizens and professional leaders with high ethical and moral values, who contribute in

Objectives:

Provide participants with a basic understanding of what ArcGIS is and its core functionalities.

Help participants learn how to manage spatial data effectively within the ArcGIS environment, including data input, storage, manipulation, and output.

Teach participants how to create maps and visualize spatial data using ArcGIS, including symbology, labeling, and layout design.

Depending on the workshop's focus, provide an overview of how ArcGIS can be used for remote sensing and image analysis tasks, including classification, change detection, and image interpretation

Outcomes

1. Participants will become proficient in using ArcGIS software, including ArcMap, ArcGIS Pro, and ArcGIS Online, depending on the focus of the workshop.

2. Participants will learn how to effectively manage spatial data within the ArcGIS environment, including data input, editing, organization, and storage.

3. Participants will be able to create visually appealing and informative maps using ArcGIS, including customizing symbology, labeling features, and designing map layouts.

4. Participants will learn how to leverage web GIS platforms, such as ArcGIS Online, to share, publish, and collaborate on spatial data and maps over the internet.

5. Participants will enhance their problem-solving abilities by applying GIS concepts and techniques to real-world scenarios and case studies presented during the workshop.

Course Content

- 1) Importing and exporting spatial data
- Data sources and acquisition
- Basic editing techniques (digitizing)
- Creating and customizing maps
- Symbolization and thematic mapping
- Labeling features and adding annotations
- Designing map layouts and templates
- Introduction to remote sensing concepts
- Image interpretation and classification
- Change detection and image analysis techniques
- Integration of remote sensing data with GIS
- Practical exercises and tutorials to reinforce concepts learned
- Independent or group projects to apply GIS skills to real-world scenarios

Eswar College of Engineering is having MOU with International Institute of Information Technology IIT-Hyderabad and introduced CIT Programme for students Digital Class facility is also provided in association with Manipal K12, Bangalore, every first college in Andhra Pradesh

About department

ESWAR has a highly-specialised Computer Science Department that exposes students to a broad range of subjects involving advanced computer engineering and its application in industry. The curriculum relies heavily on industry-academia interaction and responds to the current needs and trends in the global software industry. The Department of Computer Science Engineering is established in 2008. It offers B.Tech programme with a student intake of 60.

Vision:

To excel in the emerging fields of computer science of engineering by conducting cutting-edge research, advocating for ethical principles, and addressing societal needs.

Mission:

- To provide strong fundamentals and technical skills through effective teaching learning Methodologies, disseminate knowledge by organizing seminars, field visits and workshops
- To develop responsible citizens and professional leaders with high ethical and moral values, who contribute in dissemination of universal science and technology.

(22th to 24th, AUG-2022)

Date: 15/08/2022

To

The Principal/HOD,

Dear Sir/Madam

Sub: A Three-day Research workshop on **Designing Solar Energy PV Systems** – announcement – Requested

We are pleased to inform you that the department of Electrical and Electronics Engineering, **ESWAR COLLEGE OF ENGINEERING** is organizing a three-day Research workshop on “**Designing Solar Energy PV Systems**” from **22/08/2022 to 24/08/2022**. The details are furnished in the enclosed brochure.

We request you to give wide publicity among the students by displaying the brochure. I further request you to encourage your students to participate in this workshop.

Thanking you for your kind co-operation and looking forward to participate more from your college.

Yours truly,

Dr. V. Praveen

PRINCIPAL
ESWAR COLLEGE OF ENGINEERING

Objectives:

This workshop has emphasis to provide a platform for interaction and to discuss about the recent advances, new paradigms, technological trends and challenges in the field of differentiate between various renewable energy sources, perform power and energy calculations, load analysis, commissioning procedures, mounting PV arrays, how to install a solar PV system and design and install a solar PV system for home.

Outcomes:

- Can Design and Install a solar PV System for home.
- Hands on experience on how to install a solar PV system.
- Perform calculations related to mounting PV arrays.
- Perform Power and energy calculation.
- Differentiate between various renewable energy sources.

Course Content

- Present Energy Scenario in India.
- Introduction to Solar PV.
- Components of solar PV system.
- Designing Standalone System (off-Grid).
- Financial Analysis.

About college

Eswar College of Engineering was established during the academic year 2008 -09 and sponsored by Shaik Dada Saheb Charitable Trust, with a vision of Imparting futuristic technical education and instill high patterns of discipline in order to set global standards and making the students technologically superior and ethically strong. The young and dynamic promoters have selected this rural area with lot of foresight. The Institution is spread over 22 acres of lush green landscape and located at 5th km stone on the Narasaraopet- Chikalatoripeta Road. The Institution offers the UG Courses B. Tech-CIVIL, EEE, ECE, CSE, AME, ME, PG Courses M. Tech- PE&ED, DECS, CSE, CAD/CAM & MBA. The tourist places nearby are Kotappakonda, Amaravathi, Surylanka Beach. Eswar College of Engineering is having MOU with International Institute of Information Technology IIT-Hyderabad and introduced CTT Programme for students. Rigitial Class facility is also provided in association with Manipal K12, Bangalore, the very first college in Andhra Pradesh.

About department

The Department of Electrical & Electronics Engineering is established in 2008 and offering B. Tech with the intake of 60 seats in the academic year 2008. Department is also offering M. tech in Power Electronic and Electrical Drives from the academic year 2014 with the intake of 18 seats.

Vision: "To be recognized for producing meritorious electrical engineers with research proficiency and social commitment"

Mission:

- Impart quality education with practice-based learning in producing electrical engineers with critical values.
- Encourage the faculty and students to acquire proficiency in cutting-edge technologies.
- Implement research activities with social commitment.

Program Name: A Three-Day Research Workshop On

DESIGNING SOLAR ENERGY PVS SYSTEMS

Dates: 22-08-22 to 24-08-2022

No of days: 03

Room no: 223

No of participants: 26

Resource Person: B. Purushottam Chari, Technical Manager, Green Energy Technologies, Hyderabad

Topics covered:

- 1) Present Energy Scenario in India.
- 2) Introduction to Solar PV.
- 3) Components of solar PV system.
- 4) Designing Standalone System (off - Grid).
- 5) Financial Analysis.
- 6) Practical Session on PV module.

Program outcomes:

- 1) Can Design and Install a solar PV System for home.
- 2) Hands on experience on how to install a solar PV system.
- 3) Perform Power and energy calculation.
- 4) Perform calculations related to mounting PV arrays.

OBJECTIVES:

1. 3D printing allows for the design and print of more complex designs than traditional manufacturing processes.
2. More traditional processes have design restrictions which no longer apply with the use of 3D printing.

OUTCOMES

1. 3D printing has been used for various purposes, such as prototyping, art, medicine, and engineering.
2. However, in recent years, 3D printing has also emerged as a powerful tool for learning and teaching in various disciplines, especially in the geoscience field

COURSE CONTENT

•Stereo- Lithography, LOM, FDM, SLS, SLM, Binder Jet technology. •Process, Process parameter, Process Selection for various applications. •Additive Manufacturing Application Domains: Aerospace, Electronics, Health Care, Defence, Automotive, Construction, Food Processing, Machine Tools

About college

Eswar College of Engineering was established during the academic year 2008 -09 and sponsored by Shaik Dada Saheb Charitable Trust. with a vision of Imparting futuristic technical education and instill high patterns of discipline in order to set global standard sand making he students technologically superior and ethically strong. They young and dynamic promoters have elected this rural area with lot of foresight. The Institution is spread over 22 acres of lush Greenland scape and located at 5th km stone on the Narasaraopet-Chilakaluripet Road. The Institution offers the UG Courses B.Tech-CIVIL, EEE, ECE,CSE,AME,ME,PG Courses M.Tech-PE&ED,DECS,CSE,CAD/CAM &MBA. The tourist places near by are Kotappakonda,Amaravathi,Surylanka Beach. Eswar College of Engineering is having MOU with International Institute of Information Technology IIT-Hyderabad and introduced CIT Programme for students Digital Class facility is also provided in association with Manipal KI2,Bangalore, every first college in Andhra Pradesh

About department

Mechanical Engineering is a core engineering discipline, the concepts of which are prerequisite for every other branch of engineering as rightly reflected by the curriculum framed by reputed universities all over the world. This is precisely the reason for many mechanical engineers to occupy responsible positions practically in every field of activity - Space , Aviation, Power, Defense and of-course the elite Information technology as well .

Modern technological developments covering MEMS, NANO, Biomedical etc have been a part of studies in this field of engineering only. The Department of Mechanical Engineering is established in 2011. It offers B.Tech programme with a student intake of 60

VISION:

To be regionally, nationally and internationally recognized in providing Mechanical Engineering education, leading to well qualified engineers who are innovative, immediate contributors to their profession and successful in advanced studies.

MISSION:

1. To educate, prepare and mentor students to excel as professionals.
2. To provide the facilities and environment conducive to high quality education to get diverse careers as well as research in the field of Mechanical Engineering.
3. To improve communication skills to excel in higher studies and placements.
4. To facilitate team work culture and improve the social standards and quality of life of graduates.

Report of the Program

Program Name: A RESEARCH WORKSHOP ON 3D PRINTING

Dates: 17/10/2023 to 19/10/2023

No of days: 03

Room no: 223

No of participants: 37

Resource Person: Dr.G. Vijaya Prakash VRIT,SAP

Topics covered: 3D printing is an additive process of making three-dimensional objects from a computer-aided design (CAD) model. 3D printing is achieved by laying down successive layers of material to form shapes.

To print, the machine reads the design from an .stl file (stereolithography format) and lays down successive layers of material to build a series of cross-sections. These layers are joined or automatically fuse to create the final shape.

Program outcomes: After completion of this course, the students will be able to: •Develop CAD models for 3D printing.

•Import and Export CAD data and generate .stl file.

Objectives:

Prototype testing is the process of testing an early version of a product or feature with real users. The purpose of prototype testing is to validate the design before development starts and identify problems early on, so you can build a product that meets user needs and expectations.

Outcomes:

- | |
|--|
| 1. Prototyping offers designers the opportunity to bring their ideas to life |
| 2. Test the practicability of the current design |
| 3. Potentially investigate how a sample of users think and feel about a product. |

Course Content

You will make your model car with working copies of automobile systems like transmission, suspension, powertrain, steering, locomotion and the chassis. This will help you develop a deeper understanding of automobile engineering and give you necessary practical skills useful for the automobile industry.

About college

Eswar College of Engineering was established during the academic year 2008 -09 and sponsored by Shaik Dada Saheb Charitable Trust, with a vision of Imparting futuristic technical education and instill high patterns of discipline in order to set global standards and making the students technologically superior and ethically strong. The young and dynamic promoters have selected this rural area with lot of foresight. The institution is spread over 22 acres of lush green landscape and located at 5th km stone on the Narasaraopet- Chilakaluripet Road. The Institution offers the UG Courses B.Tech-CIVIL, EEE, ECE, CSE, AME, ME, PG Courses M.Tech-PE&ED, DECS, CSE, CAD/CAM & MBA. The tourist places near by are Kotappakonda, Amaravathi, Surylanka Beach. Eswar College of Engineering is having MOU with International Institute of Information Technology IIT-Hyderabad and introduced CIT Programme for students. Digital Class facility is also provided in association with Manipal K12, Bangalore, the very first college in Andhra Pradesh.

About department

Automobile Engineering is a core engineering discipline, the concepts of which are prerequisite for every other branch of engineering as rightly reflected by the curriculum framed by reputed universities all over the world. This is precisely the reason for many Automobile engineers to occupy responsible positions practically in every field of activity - Space, Aviation, Power, Defense and of-course the elite Information technology as well.

Modern technological developments covering MEMS, NANO, Biomedical etc have been a part of studies in this field of engineering only. The Department of Automobile Engineering is established in 2011. It offers B.Tech programme with a student intake of 60

VISION:

To be regionally, nationally and internationally recognized in providing Automobile Engineering education, leading to well qualified engineers who are innovative, immediate contributors to their profession and successful in advanced studies.

MISSION:

1. To educate, prepare and mentor students to excel as professionals.
2. To provide the facilities and environment conducive to high quality education to get diverse careers as well as research in the field of Automobile Engineering.
3. To improve communication skills to excel in higher studies and placements.
4. To facilitate team work culture and improve the social standards and quality of life of graduates.

Sub: Request approval to conduct **A One-day seminar on Access Control using RFID** - Reg

The Department of Electronics and Communication Engineering is planning to conduct a **One-day seminar on Access Control using RFID** for IV B.Tech ECE students on 28-01-23 that benefits the students /staff for enhancing their knowledge. The resource person for the seminar is Dr. SK.BASHEERA, Assoe. prof. Dept. of ECE from CHIRALA ENGINEERING COLLEGE, Chirala. We request you to accord the approval and provide the required resources for the smooth conduction of the seminar.

Thanking you sir,

Objectives:

The objectives of access control using RFID is to learn about access control using RFID to be familiarized with universal electronics communication concepts like expectation, thinking to be familiarized with general electronics concepts like components & functions to be familiarized with general coding techniques and object oriented technique

Outcomes

Proficiency in RFID Technology: Participants will demonstrate a solid understanding of RFID technology, its components, and its applications in access control systems.

Ability to Design RFID-Based Access Control Systems: Attendees will be capable of designing and implementing RFID-based access control solutions tailored to specific needs and environments.

Skills in RFID-Access Control System Integration: Participants will acquire the skills to integrate RFID hardware with access control software, enabling efficient and effective system management.

Enhanced Security Awareness and Implementation: The course will empower participants to implement security best practices and measures to ensure the reliability and integrity of RFID-based access control systems.

Course Content

- Fundamental Understanding of RFID Technology
- Design and Implementation of RFID-Based Access Control Systems.
- Integration of RFID Technology with Access Control Software
- Security and Best Practices in RFID Access Control

About department

The Department of Electronics & Communication Engineering came into existence in 2001 immediately when the institute was founded. It started with an intake of 60 students which was subsequently raised to 120 over a period of time. It offers 4- a year B.Tech degree program in Electronics & Communication Engineering, 2 Year M.Tech degree in Digital Electronics and Communication system with an intake of 18.

Vision: To excel in the emerging fields of electronics and communication engineering by conducting cutting-edge research, advocating for ethical principles, and addressing societal needs

Mission:

- To provide strong fundamentals and technical skills through effective teaching learning Methodologies.
- Disseminate knowledge by organizing seminars, field visits and workshops.
- To provide an ambiance for research through collaborations with industry and academia.
- To develop responsible citizens and professional leaders with high ethical and moral values, who contribute in dissemination of universal science and technology.

Report of the Program

Program Name: A One day seminar on Access Control using RFID

Dates : 28-01-23

No of days: 01

Room no : 120

No of participants : 79

Resource Person:: SK BASHEERA, Ph.D.,

Assoc.Prof. Dept of ECE, Chirala Engineering College.

Topics covered::

- 1) Fundamental Understanding of RFID Technology
- 2) Design and Implementation of RFID-Based Access Control Systems.
- 3) Integration of RFID Technology with Access Control Software
- 4) Security and Best Practices in RFID Access Control

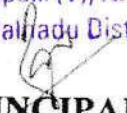

Program outcomes ::

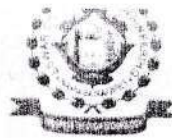

- 1) Learn about RFID and its applications
- 2) Build your own RFID based Authentication system
- 3) Work with microcontrollers, RFID tags & readers etc..
- 4) Understand and implement microcontroller programming
- 5) Test and demonstrate your final project

Dear Sir/Madam

Sub: A one day Research seminar on “Laplace Transforms” –
announcement – Requested

We are pleased to inform you that the Department of
SCIENCE AND HUMANITIES, ESWAR COLLEGE OF
ENGINEERING is organizing A one day Research seminar on
“Laplace Transforms” from 22-12-2022. The details are furnished
in the enclosed brochure.

We request you to give wide publicity among the students
by displaying the brochure. I further request you to encourage your
students to participate in this workshop.

Thanking you for your kind co-operation and looking
forward to participate more from your college.

Yours truly,

Objectives:

- Solving Differential Equations
- Stability Analysis
- Transient and Steady-State Analysis
- Frequency Domain Analysis
- Convolution and Filtering
- Integral and Differential Operations,

oUTCOMES:

- Transformed Function
- Shifting Theorem
- Scaling Theorem
- Differentiation Theorem
- Integration Theorem
- Initial Value Theorem
- Final Value Theorem
- Linearity

Course Content:

- Definition and motivation behind Laplace transforms
- Comparison with other integral transforms
- Linearity, shifting, scaling, and differentiation theorems
- Convolution theorem and initial/final value theorems
- Stability analysis of systems using Laplace transforms
- Transfer functions and their applications in system analysis

About college

Eswar College of Engineering was established during the academic year 2008 -09 and sponsored by Shaik Dada Saheb Charitable Trust, with a vision of Imparting futuristic technical education and instill high patterns of discipline in order to set global standard and making the students technologically superior and ethically strong. They young and dynamic promoters have elected this rural area with lot of foresight. The Institution is spread over 22 acres of lush Greenland scape and located at 5th km stone on the Narasaraopet-Chilakaluripet Road. The Institution offers the UG Courses B.Tech-CIVIL, EEE, ECE, CSE, AME, ME, PG Courses M.Tech-PE&ED, .DECS, CSE, CAD/CAM & MBA. The tourist places nearby are Kotappakonda, Amaravathi, Surylanka Beach. Eswar College of Engineering is having MOU with International Institute of Information Technology IIT-Hyderabad and introduced CIT Programme for students Digital Class facility is also provided in association with Manipal K12, Bangalore, every first college in Andhra Pradesh

About department

The Department of Safety and Health (S&H) typically refers to a governmental or organizational department focused on ensuring the safety and health of individuals within a specific context, such as workplaces, communities, or public spaces. These departments are responsible for developing and enforcing regulations, conducting inspections, providing education and training, and responding to incidents or emergencies related to safety and health hazards.

Vision:

"To be a global leader in providing innovative solutions for sustainable living, empowering communities, and fostering environmental stewardship."

Mission:

"At S&H Corporation, we are committed to delivering high-quality products and services that enhance the well-being of individuals and communities worldwide. Through relentless innovation, responsible business practices, and collaboration with stakeholders, we aim to create value for our customers, employees, and shareholders while contributing to a healthier, more sustainable planet."

A ONE-DAY RESEARCH SEMINAR ON “CNC MACHINES” (13th, MAR-2023)

Date: 10-03-2023

To

The Principal/HOD,

Dear Sir/Madam

Sub: A ONE-DAY RESEARCH SEMINAR ON “CNC MACHINES” –
announcement – Requested

We are pleased to inform you that the Department of Mechanical Engineering, **ESWAR COLLEGE OF ENGINEERING** is organizing A **ONE-DAY RESEARCH SEMINAR ON “CNC MACHINES”** on **13/03/2023**. The details are furnished in the enclosed brochure.

We request you to give wide publicity among the students by displaying the brochure. I further request you to encourage your students to participate in this Seminar.

Thanking you for your kind co-operation and looking forward to participate more from your college.

Yours truly,

K. MUSALIAH

(Convener)

Principal
ESWAR COLLEGE OF ENGINEERING

OBJECTIVES:

CNC machines are cost-effective and bring down the cost of production due to precision manufacturing.

Energy consumption is decreased as a result of increased production efficiency, scalability and less material waste, which also lowers operating expenses.

OUTCOMES

CNC machining is a form of manufacturing that uses computer-controlled machine tools to create parts and products.

The main advantages of CNC machining over traditional methods are greater accuracy, more precise control, and higher efficiency.

COURSE CONTENT

After completing the course, learners will acquire knowledge of the following: Interpret and Prepare Production Drawings.

Familiarise with the Conventional Machines.

Programme Production Jobs for CNC Turning and CNC Vertical Machining Centre.

About college

Eswar College of Engineering was established during the academic year 2008 -09 and sponsored by Shaik Dada Saheb Charitable Trust, with a vision of Imparting futuristic technical education and instill high patterns of discipline in order to set global standard and making the students technologically superior and ethically strong. They young and dynamic promoters have elected this rural area with lot of foresight. The Institution is spread over 22 acres of lush Greenland scape and located at 5th km stone on the Narasaraopet-Chilakaluripet Road. The Institution offers the UG Courses B.Tech-CIVIL, EEE, ECE,CSE,AME,ME,PG Courses M.Tech-PE&ED,DECS,CSE,CAD/CAM &MBA. The tourist places near by are Kotappakonda, Amaravathi, Surylanka Beach. Eswar College of Engineering is having MOU with International Institute of Information Technology IIT-Hyderabad and introduced CIT Programme for students Digital Class facility is also provided in association with Manipal K12, Bangalore. every first college in Andhra Pradesh

About department

Mechanical Engineering is a core engineering discipline, the concepts of which are prerequisite for every other branch of engineering as rightly reflected by the curriculum framed by reputed universities all over the world. This is precisely the reason for many mechanical engineers to occupy responsible positions practically in every field of activity - Space , Aviation, Power, Defense and of-course the elite Information technology as well .

Modern technological developments covering MEMS, NANO, Biomedical etc have been a part of studies in this field of engineering only. The Department of Mechanical Engineering is established in 2011. It offers B.Tech programme with a student intake of 60

VISION:

To be regionally, nationally and internationally recognized in providing Mechanical Engineering education, leading to well qualified engineers who are innovative, immediate contributors to their profession and successful in advanced studies.

MISSION:

1. To educate, prepare and mentor students to excel as professionals.
2. To provide the facilities and environment conducive to high quality education to get diverse careers as well as research in the field of Mechanical Engineering.
3. To improve communication skills to excel in higher studies and placements.
4. To facilitate team work culture and improve the social standards and quality of life of graduates.
5. To improve the research activities of the students

About department

ESWAR has a highly-specialised Computer Science Department that exposes students to a broad range of subjects involving advanced computer engineering and its application in industry. The curriculum relies heavily on industry-academia interaction and responds to the current needs and trends in the global software industry. The Department of Computer Science Engineering is established in 2008. It offers B.Tech programme with a student intake of 60.

Vision:

To excel in the emerging fields of computer science of engineering by conducting cutting-edge research, advocating for ethical principles, and addressing societal needs

Mission:

-To provide strong fundamentals and technical skills through effective teaching learning Methodologies, disseminate knowledge by organizing seminars, field visits and workshops

-To develop responsible citizens and professional leaders with high ethical and moral values, who contribute in dissemination of universal science and technology.

What is intellectual property?

- ▶ According to the World Intellectual Property Organization, Intellectual property (IP) refers to creations of the mind: inventions, literary and artistic works, and symbols, names, images, and designs used in commerce.
- ▶ Intellectual property in a simple sense is a creation of the human intelligence or mind. As a form of property right, intellectual property can be considered as assets that can be bought, sold, mortgaged, exchanged, and licensed like physical property. Intellectual property is safeguarded only if rights (regarding its use) are given to the producers of intellectual property. Intellectual property rights are provided by national governments with the aid of statutory provisions to inventors writers etc.

Respected sir,

Sub: Request approval to conduct A **One week Research workshop**
on **INDUCTION ROBOTICS-Reg**

The Department of Automobile Engineering is planning to conduct A **One week Research workshop on “Induction ROBOTICS”** to IV B-Tech students from 20-02-2023 to 25-02-2023. That benefits the students /staff for enhancing their knowledge. The resource person for the workshop is Dr.G.Vijaya Prakash, Dept of ME from VARAPRASDA REDDY INSTITUTE OF TECHNOLOGY. We request you to accord the approval and grant the required resources for smooth conduction of the workshop.

Thanking you sir ,

Objectives:

Robotics is a branch of engineering and computer science that involves the conception, design, manufacture and operation of robots. The objective of the robotics field is to create intelligent machines that can assist humans in a variety of ways. Robotics can take on a number of forms.

Outcomes:

1. Introduction to Robotics & Robotics Systems.
2. Understanding robotics systems in depth and its applications.
3. Understanding and developing robotic arms and its applications.
4. Understanding and designing wheelchair chassis.

Course Content

Students who study robotic course will learn about computer graphics, gadgetry, mobile robot, programming, robotic motion methods, mathematical algorithms, the social implications of technology, and much more.

About college

Eswar College of Engineering was established during the academic year 2008 -09 and sponsored by Shaik Dada Saheb Charitable Trust, with a vision of imparting futuristic technical education and instill high patterns of discipline in order to set global standards and making the students technologically superior and ethically strong. The young and dynamic promoters have selected this rural area with lot of foresight. The Institution is spread over 22 acres of lush green landscape and located at 5th km stone on the Narasaraopet-Chilakaluripet Road. The Institution offers the UG Courses B.Tech-CIVIL, EEE, ECE, CSE, AME, ME, PG Courses M.Tech-PE&ED, DECS, CSE, CAD/CAM & MBA. The tourist places near by are Kotappakonda, Amaravathi, Surylanka Beach. Eswar College of Engineering is having MOU with International Institute of Information Technology IIT-Hyderabad and introduced CIT Programme for students Digital Class facility is also provided in association with Manipal K12, Bangalore, the very first college in Andhra Pradesh

About department

Automobile Engineering is a core engineering discipline, the concepts of which are prerequisite for every other branch of engineering as rightly reflected by the curriculum framed by reputed universities all over the world. This is precisely the reason for many Automobile engineers to occupy responsible positions practically in every field of activity - Space, Aviation, Power, Defense and of-course the elite Information technology as well.

Modern technological developments covering MEMS, NANO, Biomedical etc have been a part of studies in this field of engineering only. The Department of Automobile Engineering is established in 2011. It offers B.Tech programme with a student intake of 60

VISION:

To be regionally, nationally and internationally recognized in providing Automobile Engineering education, leading to well qualified engineers who are innovative, immediate contributors to their profession and successful in advanced studies.

MISSION:

1. To educate, prepare and mentor students to excel as professionals.
2. To provide the facilities and environment conducive to high quality education to get diverse careers as well as research in the field of Automobile Engineering.
3. To improve communication skills to excel in higher studies and placements.
