About college

Eswar College of Engineering was established during the academic year 2008 -09 and sponsored by Shaik Dada Saheb Charitable Trust, with a vision of imparting futuristic technical education and in still high patterns of discipline in order to set global standards and making the students technologically superior and ethically strong. The young and dynamic promoters have selected this rural area with lot of foresight. The Institution is spread over 22 acres of lush green landscape and located at 5th km stone on the Narasaraopet- Chilakaluripeta Road. The Institution offers the UG Courses B. Tech-CIVIL, EEE, ECE, CSE, AME, ME. PG Courses M. Tech-PE&ED, DECS, CSE, CAD/CAM & MBA. The tourist places nearby are Kotappakonda, Amaravathi, Surylanka Beach. **Eswar College of Engineering is having MOU with International Institute of Information Technology IIIT- Hyderabad and introduced CIT Programme for students Digital Class facility is also provided in association with Manipal K12, Bangalore, the very first college in Andhra Pradesh.**

About department

ESWAR has a highly-specialised Civil Department that exposes students to a broad range of subjects involving advanced Civil engineering and its application in industry. The curriculum relies heavily on industry-academia interaction and responds to the current needs and trends in the construction industry. The Department of Civil Engineering is established in 2008. It offers B.Tech programme with a student intake of 60.

Vision:

To impart knowledge and excellence in Civil Engineering and technology with global perspectives to our students and to make them ethically strong engineers to build our nation.

Mission:

- To produce Civil Engineers of high caliber, technical skills and ethical values to serve the society and nation.
- To make the department a centre of excellence in the field of civil engineering and allied research.

FIVE DAY FDP ON “STRUCTURAL ANALYSIS”

(20th TO 24th MAY 2019)

Date: 07-05-2019

To
The Principal/HOD,
Dear Sir/Madam

Sub: announcement – Requested

We are pleased to inform you that the Department of Civil Engineering of **ESWAR COLLEGE OF ENGINEERING** is organizing a “**FIVE DAY FDP ON “STRUCTURAL ANALYSIS”**”

From **20/05/2019 To 24/05/2019** The details are furnished in the enclosed brochure.

We request you to give wide publicity among the staff by displaying the brochure. I further request you to encourage all staff members to participate in this fdp.

Thanking you for your kind co-operation and looking forward to participate more from your college.

Objectives:

Determine the stresses and strains within materials to ensure they are within allowable limits.

Assess the stability of structures under various loading conditions to prevent collapse or excessive deformation.

Conduct reliability analyses to predict the performance of structures under uncertain conditions.

Predict the deflections and deformations of structural elements to ensure they are within acceptable limits.

Optimize the use of materials to achieve cost-effective and efficient structural designs.

Ensure that the structural design and analysis comply with relevant national and international building codes and standards.

Meet all regulatory and safety requirements for structural engineering projects.

Outcomes:

- Enhanced Knowledge and Understanding
- Improved Teaching and Pedagogical Skills:
- Enhanced Analytical and Problem-Solving Skills:
- Proficiency in Software and Tools:
- Research and Collaboration Opportunities:

Course Content:

- Introduction to Structural Analysis
- Basic concepts and principles
- Statically Determinate Structures
- Advanced Methods
- Finite Element Analysis (FEA)
- Industry Perspectives and Career Opportunities

Basic concepts: load, stress, strain, and deformation

Analysis of beams, trusses, and frames

Calculating shear forces and bending moments for different types of loads

Virtual work method for deflection analysis

Influence lines for reactions, shear forces, and bending moments

Stiffness method for beams and frames

Discretization of structures

Objectives:

Firstly, it ensures that your bike performs at its best, delivering the power and responsiveness you expect. Regular maintenance also reduces the risk of breakdowns which can be costly, frustrating and inconvenient especially when on the road. Another important reason to prioritize motorcycle maintenance is safety.

Outcomes:

1. Air filter must be cleaned.
2. All bolts/nuts should be checked and tightened if loose.
3. Chain clearance adjustment.
4. Chain/front/rear sprocket must be thoroughly cleaned.
5. If clutch/accelerator operation is tight when engaged, their wires should be cleaned with petrol. I've found this step very essential & effective.

Course Content:

1. Understand the basics of motorbike engines and their operation.
2. Gain knowledge on engine cooling and lubrication systems.
3. Develop skills in maintaining and troubleshooting ignition systems.
4. Learn about suspension systems and how to optimize them.
5. Master t
- 6.
7. he maintenance of intake, fuel, clutch, and exhaust systems.

About department

Automobile Engineering is a core engineering discipline, the concepts of which are prerequisite for every other branch of engineering as rightly reflected by the curriculum framed by reputed universities all over the world. This is precisely the reason for many Automobile engineers to occupy responsible positions practically in every field of activity - Space, Aviation, Power, Defense and of-course the elite Information technology as well.

Modern technological developments covering MEMS, NANO, Biomedical etc have been a part of studies in this field of engineering only. The Department of Automobile Engineering is established in 2011. It offers B.Tech programme with a student intake of 60

Vision

To be regionally, nationally and internationally recognized in providing Automobile Engineering education, leading to well qualified engineers who are innovative, immediate contributors to their profession and successful in advanced studies.

Mission

1. To educate, prepare and mentor students to excel as professionals.
2. To provide the facilities and environment conducive to high quality education to get diverse careers as well as research in the field of Automobile Engineering.
3. To improve communication skills to excel in higher studies and placements.
4. To facilitate team work culture and improve the social standards and quality of life of graduates.

To

The Principal/HOD,

Dear Sir/Madam

Sub: A One-day Seminar on **WIRELESS ELECTRICITY**-
announcement - Requested

We are pleased to inform you that the department of Electrical and Electronics Engineering, ESWAR COLLEGE OF ENGINEERING is organizing a one-day seminar on **"WIRELESS ELECTRICITY"** on 08/09/2018 in association with MSM MULTI SOLUTIONS PVT LTD, CHENNAI. The details are furnished in the enclosed brochure.

We request you to give wide publicity among the students by displaying the brochure. Thanking you for your kind co-operation and looking forward to participate more from your college.

Yours truly,

Dr. V. Praveen

(Convener)

Objectives:

By providing basics on seminar to students, Wireless electricity, also known as wireless power transmission or wireless energy transfer, is the transmission of electrical energy from a power source to an electrical load without the need for physical connection by wires. This concept has been around for over a century, with early experiments conducted by scientists like Nikola Tesla. The principle behind wireless electricity involves the use of electromagnetic fields to transfer power between two objects.

Outcomes:

- Design and Analysis
- Experimental Techniques
- Application Development
- Interdisciplinary Connections
- Technology Landscape
- Entrepreneurial opportunities

Online Seminar is delivered through **MICROSOFT TEAMS** with adequate security features. The participants will attend the sessions by logging in from their computer/laptop.

Course Content:

- Introduction to Wireless Electricity
- Fundamentals of Electromagnetic Fields
- Inductive Power Transfer
- Resonant Wireless Power Transfer
- Microwave Power Transmission
- Laser Power Transmission
- Efficiency and Optimization Techniques
- Applications and Future Trends
- Industry Perspectives and Career Opportunities

Resource Person:

college

College of Engineering was established during the academic year 2008 -09 and sponsored by Shaik Saada Saheb Charitable Trust, with a vision of imparting futuristic technical education and in still high patterns of discipline in order to set global standards and making the students technologically superior and ethically strong. The young and dynamic promoters have selected this rural area with lot of foresight. The Institution is spread over 22 acres of lush green landscape and located at 5th km stone on the Narasaraopet- Chilakaluripeta Road. The Institution offers the UG Courses B. Tech-CIVIL, EEE, ECE, CSE, AME, ME, PG Courses M. Tech-PE&ED, DECS, CSE, CAD/CAM & MBA. The tourist places nearby are Kotappakonda, Amaravathi, Surylanka Beach. Eswar College of Engineering is having MOU with International Institute of Information Technology IIIT- Hyderabad and introduced CIT Programme for students Digital Class facility is also provided in association with Manipal K12, Bangalore, the very first college in Andhra Pradesh

About department

The Department of Electrical & Electronics Engineering is established in 2008 and offering B. Tech with the intake of 60 seats in the academic year 2008. Department is also offering M. tech in Power Electronic and Electrical Drives from the academic year 2014 with the intake of 18 seats.

Vision

"To be recognized for producing meritorious electrical engineers with research proficiency and social commitment".

Mission

- Impart quality education with practice-based learning in producing electrical engineers with ethical values.
- Encourage the faculty and students to acquire mastery in cutting edge technologies.
- Implement research activities with social commitment.

We are pleased to inform you that the Department of Mechanical Engineering, ESWAR COLLEGE OF ENGINEERING is organizing a “ONE DAY GUEST LECTURER ON “PLASTIC WELDING” From 08/09/2018 on in association with INVENTAA LED LIGHTS PVT LTD. The details are furnished in the enclosed brochure.

We request you to give wide publicity among the students by displaying the brochure. I further request you to encourage your students to participate in this workshop.

Thanking you for your kind co-operation and looking forward to participate more from your college.

Yours truly,

Objectives:

Plastic welding is a process in which heat and pressure are used to bond two or more individual pieces of thermoplastic materials together. The process is often used to join plastic parts that are difficult to be joined to form a welding joint, sometimes also called the joint area. Typically, heat is applied at the edges in order to melt the edges of the plastic until the edges can be merged together.

Plastic welding is achieved in three phases, surface preparation, application of heat and pressure and cooling.

Many plastics can be welded such as acrylic or polymethyl methacrylate (PMMA), polycarbonate (PC), polyethylene (PE), polypropylene (PP), polyethylene terephthalate (PETE or PET), polyvinyl chloride (PVC), acrylonitrile-butadiene-styrene (ABS).

Outcomes:

Strength: Welds can be extremely strong and retain their strength even at high temperatures.

Durability: Welds can be permanent and ensure product durability.

Cost-effective: Plastic welding can reduce labor costs and eliminate the need for additional materials like adhesives or fasteners.

Sustainable: Plastic welding can minimize waste and contribute to eco-friendly practices.

Safer: Plastic welding produces fewer fumes than other welding methods.

Course Content:

Polyvinyl chloride (PVC)
Polyethylene (PE)
Acrylonitrile-butadiene-styrene (ABS)
Polymethyl methacrylate (PMMA)
Polyethylene terephthalate (PET)
Polypropylene (PP)
Polycarbonate (PC)

About college

Eswar College of Engineering was established during the academic year 2008 -09 and sponsored by Shaik Dada Saheb Charitable Trust, with a vision of imparting futuristic technical education and in still high patterns of discipline in order to set global standards and making the students technologically superior and ethically strong. The young and dynamic promoters have selected this rural area with lot of foresight. The Institution is spread over 22 acres of lush green landscape and located at 5th km stone on the Narasaraopet – Chilakaluripeta Road. The Institution offers the UG Courses B. Tech-CIVIL, EEE, ECE, CSE, AME, ME, PG Courses M. Tech-PE&ED, DECS, CSE, CAD/CAM & MBA. The tourist places nearby are Kotappakonda, Amaravathi, Surylanka Beach. Eswar College of Engineering is having MOU with International Institute of Information Technology IIIT- Hyderabad and introduced CIT Programme for students Digital Class facility is also provided in association with Manipal K12, Bangalore, the very first college in Andhra Pradesh.

About department

Mechanical Engineering is a core engineering discipline, the concepts of which are prerequisite for every other branch of engineering as rightly reflected in the curriculum framed by reputed universities all over the world. This is precisely the reason for many mechanical engineers to occupy responsible positions practically in every field of activity – Space, Aviation, Power, Defense and of-course the elite Information Technology as well.

Most of the engineering based management experts hail from mechanical engineering background. There is a substantial contribution by this faculty towards the technological revolution in the country.

Modern technological developments covering MEMS, NANO, Biomedical etc have been a part of studies in the field of engineering only. The Department of Mechanical Engineering is established in 2011. It offers B.Tech programme with a student intake of 120.

Report of the Program

Program Name: ONE DAY Guest Lecturer ON PLASTIC WELDING.

Date: 08/09/2018

No of days: 01

Room no: 120

No of participants: 30

Resource Person: Dr.CH.Mallikarjuna in mechanical engineering at A.M.REDDY MEMORIAL

COLLEGE OF ENGINEERING AND TECHNOLOGY

Topics covered:

1. Welding of plastics is of practical importance in many automotive, medical and electronic packaging applications.
2. There have also been developments in textile joining, and in joining dissimilar materials (e.g. plastics to metals or ceramics).
3. The laser provides a heat source that is very controllable in terms of the amount of energy applied and the location or size of the applied heat.
4. These properties are becoming ever more important for small and large devices alike where complex joint lines and products with thermally sensitive parts are made.

Program outcomes:

Production of a good quality weld does not only depend on the welding methods, but also weldability of base materials.

Therefore, the evaluation of weld ability is of higher importance than the welding operation (see rheological weld ability) for plastics.

Program Name: ONE DAY AWARENESS PROGRAM ON VEDIC MATHEMATICS

Date: 08/10/2018

No of days: 01

Room no: 102

No of participants: 93

Resource Person: Dr. G. RAMI REDDY, A Senior Professor of Mathematics in S.V.UNIVERSITY.

Topics covered:

- Sutras
Ekādhikena Pūrvena
Śūnyam Samyāsamuccaye
- Sub-sutras: These are supplementary principles that further refine and extend the application of the main sutras.
- Specific Techniques

Program outcomes:

- Improved Mental Calculation Skills
- Enhanced Problem-Solving Abilities
- Increased Confidence in Mathematics
- Reduction in Math Anxiety
- Versatility and Applicability
- Cognitive Benefits
- Cultural Awareness and Appreciation

COURSE OBJECTIVES:

• Explain the behaviour of constituents in the composite materials

• Enlighten the students in different types of reinforcement

• Develop the student's skills in understanding the different manufacturing methods available for composite material.

• Illuminate the knowledge and analysis skills in applying basic laws in mechanics to the composite materials.

COURSE OUTCOMES: Upon completion of this course the student will be able to:

1. Explain the mechanical behavior of layered composites compared to isotropic materials.

2. Apply constitutive equations of composite materials and understand mechanical behavior at micro and macro levels.

3. Determine stresses and strains relation in composites materials

About college

Eswar College of Engineering was established during the academic year 2008 -09 and sponsored by Shaik Dada Saheb Charitable Trust. with a vision of imparting futuristic technical education and instill high patterns of discipline in order to set global standard and making the students technologically superior and ethically strong. They young and dynamic promoters have elected this rural area with lot of foresight. The Institution is spread over 22 acres of lush Greenland scape and located at 5th km stone on the Narasaraopet- Chilakaluripet Road. The Institution offers the UG Courses B.Tech-CIVIL, EEE, ECE,CSE,AME,ME,PG Courses M.Tech-PE&ED,DECS,CSE,CAD/CAM &MBA. The tourist places near by are Kotappakonda,Amaravathi,Surylanka Beach. Eswar College of Engineering is having MOU with International Institute of Information Technology IIT-Hyderabad and introduced CIT Programme for students Digital Class facility is also provided in association with Manipal K12,Bangalore, every first college in Andhra Pradesh

About department

Mechanical Engineering is a core engineering discipline, the concepts of which are prerequisite for every other branch of engineering as rightly reflected by the curriculum framed by reputed universities all over the world. This is precisely the reason for many mechanical engineers to occupy responsible positions practically in every field of activity - Space , Aviation, Power, Defense and of-course the elite Information technology as well .

Modern technological developments covering MEMS, NANO, Biomedical etc have been a part of studies in this field of engineering only. The Department of Mechanical Engineering is established in 2011. It offers B.Tech programme with a student intake of 60

VISION:

To be regionally, nationally and internationally recognized in providing Mechanical Engineering education, leading to well qualified engineers who are innovative, immediate contributors to their profession and successful in advanced studies.

MISSION:

1. To educate, prepare and mentor students to excel as professionals.
2. To provide the facilities and environment conducive to high quality education to get diverse careers as well as research in the field of Mechanical Engineering.
3. To improve communication skills to excel in higher studies and placements.
4. To facilitate team work culture and improve the social standards and quality of life of graduates.
5. To improve the research activities of the students

- **Topics covered:** Reinforced concrete and masonry
- Composite wood such as plywood
- Reinforced plastics, such as fibre-reinforced polymer or fiberglass
- Ceramic matrix composites (composite ceramic and metal matrices)
- Metal matrix composites^[2]
- and other advanced composite materials

Program outcomes: Engineering knowledge: Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.

2. Problem analysis: Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.

(Convener)

Objectives:

By providing basics on seminar to students, smart grid is to modernize the existing electrical grid infrastructure by integrating advanced communication, control, and information technologies. Ensure that the objectives are realistic and attainable within the given resources and timeframe. This might involve phased implementations or prioritizing certain upgrades based on cost-effectiveness and impact. Align the objectives with broader energy policy goals such as reducing greenhouse gas emissions, enhancing energy security, promoting energy efficiency, and fostering economic growth through innovation.

Outcomes:

- Reduced Energy Losses
- Improved Reliability
- Enhanced Grid Resilience
- Increased Renewable Integration
- Improved Demand Response
- Empowered Consumers
- Optimized Asset Utilization

Course Content:

- Introduction to Smart Grids
- Smart Grid Architecture and Technologies
- Smart Grid Communication and Data Management
- Grid Modernization Strategies
- Grid Operations and Management
- Renewable Energy Integration
- Consumer Engagement and Empowerment
- Future Trends and Emerging Technologies

Eswar College of Engineering is having MOU with International Institute of Information Technology IIT- Hyderabad and introduced CIT Programme for students Digital Class facility is also provided in association with Manipal K12, Bangalore, the very first college in Andhra Pradesh.

About department

Automobile Engineering is a core engineering discipline, the concepts of which are prerequisite for every other branch of engineering as rightly reflected by the curriculum framed by reputed universities all over the world. This is precisely the reason for many Automobile engineers to occupy responsible positions practically in every field of activity - Space, Aviation, Power, Defense and of-course the elite Information technology as well.

Modern technological developments covering MEMS, NANO, Biomedical etc have been a part of studies in this field of engineering only. The Department of Automobile Engineering is established in 2011. It offers B.Tech programme with a student intake of 60

Vision

To be regionally, nationally and internationally recognized in providing Automobile Engineering education, leading to well qualified engineers who are innovative, immediate contributors to their profession and successful in advanced studies.

Mission

1. To educate, prepare and mentor students to excel as professionals.
2. To provide the facilities and environment conducive to high quality education to get diverse careers as well as research in the field of Automobile Engineering.
3. To improve communication skills to excel in higher studies and placements.
4. To facilitate team work culture and improve the social standards and quality of life of graduates.

Objectives:

Provide participants with a basic understanding of what ArcGIS is and its core functionalities.

Help participants learn how to manage spatial data effectively within the ArcGIS environment, including data input, storage, manipulation, and output.

Teach participants how to create maps and visualize spatial data using ArcGIS, including symbology, labeling, and layout design.

Depending on the workshop's focus, provide an overview of how ArcGIS can be used for remote sensing and image analysis tasks, including classification, change detection, and image interpretation.

Outcomes

1. Participants will become proficient in using ArcGIS software, including ArcMap, ArcGIS Pro, and ArcGIS Online, depending on the focus of the workshop.
2. Participants will learn how to effectively manage spatial data within the ArcGIS environment, including data input, editing, organization, and storage.
3. Participants will be able to create visually appealing and informative maps using ArcGIS, including customizing symbology, labeling features, and designing map layouts.
4. Participants will learn how to leverage web GIS platforms, such as ArcGIS Online, to share, publish, and collaborate on spatial data and maps over the internet.
5. Participants will enhance their problem-solving abilities by applying GIS concepts and techniques to real-world scenarios and case studies presented during the seminar.

Course Content

- 1) Importing and exporting spatial data
- Data sources and acquisition
- Basic editing techniques (digitizing)
- Creating and customizing maps
- Symbolization and thematic mapping
- Labeling features and adding annotations
- Designing map layouts and templates
- Introduction to remote sensing concepts
- Image interpretation and classification
- Change detection and image analysis techniques
- Integration of remote sensing data with GIS
- Practical exercises and tutorials to reinforce concepts learned
- Independent or group projects to apply GIS skills to real-world scenarios

- Deep learning with tensor flow

Program outcomes:

Will be proficient in using Python libraries like Pandas and NumPy to clean, preprocess, analyze, and visualize large and complex datasets.

Will develop the capability to apply machine learning algorithms using Python libraries to build predictive models, perform data-driven decision-making, and contribute effectively to projects in various domains.

To

The Principal/HOD,

Dear Sir/Madam

Sub: A One-day Guest Lecture on **DIGITAL ELECTRONICS** –
announcement – Requested

We are pleased to inform you that the department of Electronics and Communication Engineering, ESWAR COLLEGE OF ENGINEERING is organizing a one-day Guest Lecture on “**DIGITAL ELECTRONICS**” on 19/02/2021 in collaborated with **JSR SOLUTIONS, BANGALORE**. The details are furnished in the enclosed brochure.

We request you to give wide publicity among the students by displaying the brochure. Thanking you for your kind co-operation and looking forward to participate more from your college.

Yours truly,

Dr. K. Sanjeeva Rao

Objectives:

By providing basics on guest lecture to students, the main objective in digital electronics is to design, implement, and manage systems that process and manipulate digital signals—usually represented by binary values (0s and 1s). This involves several key goals: Accuracy and Reliability, Efficiency, Cost-Effectiveness, Optimization, Integration.

Outcomes:

- Introduction to Advanced Topics
- Improved Design and Analytical Skills
- Enhanced Knowledge of Tools and Methodologies
- Application of Knowledge to Real-World Problems
- Networking and Collaboration Opportunities

Course Content:

- Combinational Logic Circuits
- Sequential Logic Circuits
- Digital System Design
- Memory and Storage Technologies
- Emerging Trends and Technologies

Resource Person:

RAM MOHAN KANNE,

Tech Lead, Bangalore.

Eligibility:

This course is intended for IV B. Tech ECE students.

Registration fee: Free

Scheduled date: 09/02/2021

Eswar College of Engineering was established during the academic year 2008-09 and sponsored by Shaik Dada Saheb Charitable Trust, with a vision of imparting futuristic technical education and in still high patterns of discipline in order to set global standards and making the students technologically superior and ethically strong. The young and dynamic promoters have selected this rural area with lot of foresight. The Institution is spread over 22 acres of lush green landscape and located at 5th km stone on the Narasaraopet-Chilakaluripeta Road. The Institution offers the UG Courses B. Tech-CIVIL, EEE, ECE, CSE, AME, ME, PG Courses M. Tech-PE&ED, DECS, CSE, CAD/CAM & MBA. The tourist places nearby are Kotappakonda, Amaravathi, Surylanka Beach. Eswar College of Engineering is having MOU with International Institute of Information Technology IIT Hyderabad and introduced CIT Programme for students Digital Class facility is also provided in association with Manipal K12, Bangalore, the very first college in Andhra Pradesh.

About department

The Department of Electronics & Communication Engineering came into existence in 2001 immediately when the institute was founded. It started with an intake of 60 students which was subsequently raised to 120 over a period of time. It offers 4- a year B.Tech degree program in Electronics & Communication Engineering, 2 Year M.Tech degree in Digital Electronics and Communication system with an intake of 18.

Vision: To excel in the emerging fields of Electronics and communication engineering by conducting cutting-edge research, advocating for ethical principles, and addressing societal needs

Mission:

To provide strong fundamentals and technical skills through effective teaching learning Methodologies, disseminate knowledge by organizing seminars, field visits and workshops. To provide an ambiance for research through collaborations with industry and academia.

To develop responsible citizens and professional leaders with high ethical and moral values, who contribute in dissemination of universal science and technology.

ONE DAY AWARENESS PROGRAMME ON "POLLUTION CONTROL"

(10th JAN-2022)

Date: 05-01-2022

To

The Principal/HOD,

Dear Sir/Madam

Sub: A one day awareness programme on
"POLLUTION CONTROL" announcement -
Requested

We are pleased to inform you that the Department of Civil Engineering, **ESWAR COLLEGE OF ENGINEERING** is organizing "ONE DAY AWARENESS PROGRAMME ON "POLLUTION CONTROL" 10/01/2022. "Collaborated with ADVAITA GLOBAL IT LABS PVT LTD"

The details are furnished in the enclosed brochure. We request you to give wide publicity among the students by displaying the brochure. I further request you to encourage your students to participate in this seminar.

Thanking you for your kind co-operation and looking forward to participate more from your college.

Yours truly,

Objectives:

Increase understanding among the general public about different types of pollution (air, water, soil, noise) and their causes, effects, and consequences on human health and the environment.

Encourage individuals and communities to adopt sustainable practices and behaviors that reduce pollution, such as recycling, reducing energy consumption, using public transportation, and proper waste disposal.

Equip communities with the knowledge and tools to identify local sources of pollution, assess their impacts, and take collective action to address them.

Raise awareness about the direct and indirect health impacts of pollution on vulnerable populations, and the economic costs associated with pollution-related illnesses.

Outcomes

Effective pollution control programs typically aim to achieve measurable reductions in the release of pollutants into the environment. This could include reductions in emissions from industrial sources, vehicle exhaust, or agricultural runoff.

Programs targeting air pollution often lead to improvements in ambient air quality metrics such as reduced levels of particulate matter (PM), nitrogen oxides (NO_x), sulfur dioxide (SO₂), and volatile organic compounds (VOCs).

3 By reducing exposure to pollutants, pollution control programs can contribute to improved public health outcomes. This include lower rates of respiratory illnesses, cardiovascular diseases, and other health conditions associated with pollution.

4. Pollution control measures can also yield economic benefits by reducing healthcare costs associated with pollution-related illnesses, improving worker productivity, and enhancing the attractiveness of areas for tourism and investment.

5. Ultimately, pollution control programs aim to create a more sustainable future by balancing economic growth with environmental protection, ensuring resources are preserved for future generations.

Course Content

- Chemical properties of pollutants (e.g., heavy metals, organic pollutants)
- Chemical reactions in the environment (e.g., acid rain formation)
- • Fate and transport of pollutants in air, water, and soil
- • Sources of air pollution (industrial emissions, transportation, etc.)
- • Criteria pollutants and their health impacts (e.g., PM, NO_x, SO₂, VOCs)
- • Techniques for air pollution control (e.g., emission controls, air quality monitoring)
- • Case studies of successful air pollution control initiatives
- Sources of water pollution (industrial discharges, agricultural runoff, wastewater)

Types of water pollutants (e.g., pathogens, nutrients, heavy metals)

ESWAR College of Engineering was established during the academic year 2008 -09 and sponsored by Shaik Dada Saheb Charitable Trust, with a vision of imparting futuristic technical education and instill high patterns of discipline in order to set global standards and making the student technologically superior and ethically strong. They young and dynamic promoters have selected this rural area with lot of foresight. The Institution is spread over 22 acres of lush Greenland scape and located at 5th km stone on the Narasaraopet-Chilakaluripet Road. The Institution offers the UG Courses B.Tech-CIVIL, EEE, ECE, CSE, AME, ME, PG Courses M.Tech-PE&ED, DECS, CSE, CAD/CAM&MBA. The tourist places nearby are Kotappakonda, Amaravathi, Surylanka Beach. Eswar College of Engineering is having MOU with International Institute of Information Technology III T-Hyderabad and introduced CIT Programme for students Digital Class facility is also provided in association with Manipal K12, Bangalore, every first college in Andhra Pradesh

About department

ESWAR has a highly-specialised Civil Department that exposes students to a broad range of subjects involving advanced Civil engineering and its application in industry. The curriculum relies heavily on industry-academia interaction and responds to the current needs and trends in the construction industry. The Department of Civil Engineering is established in 2008. It offers B.Tech programme with a student intake of 60.

Vision:

To impart knowledge and excellence in Civil Engineering and technology with global perspectives to our students and to make them ethically strong engineers to build our nation.

Mission:

- To produce Civil Engineers of high caliber, technical skills and ethical values to serve the society and nation.
- To make the department a centre of excellence in the field of civil engineering and allied research.
- To provide knowledge base and consultancy services to the community in all areas of civil engineering.

About college

Eswar College of Engineering was established during the academic year 2008 -09 and sponsored by Shaik Dada Sahab Charitable Trust, with a vision of Imparting futuristic technical education and instill high patterns of discipline in order to set global standard sand making he students technologically superior and ethically strong. They young and dynamic promoters has elected this rural area with lot of foresight. The Institution is spread over 22 acres of lush Greenland scape and located at 5th km stone on the Narasaraopet- Chilakaluripet Road. The Institution offers the UG Courses B.Tech-CIVIL, EEE, ECE,CSE,AME,ME,PG Courses M.Tech-PE&ED,DECS,CSE,CAD/CAM &MBA. The tourist places near by are Kotappakonda,Amaravathi,Surylanka Beach. Eswar College of Engineering is having MOU with International Institute of Information Technology IIT-Hyderabad and introduced CIT Programme for students Digital Class facility is also provided in association with Manipal K12,Bangalore, every first college in Andhra Pradesh

About department

Mechanical Engineering is a core engineering discipline, the concepts of which are prerequisite for every other branch of engineering as rightly reflected by the curriculum framed by reputed universities all over the world. This is precisely the reason for many mechanical engineers to occupy responsible positions practically in every field of activity - Space , Aviation, Power, Defense and of-course the elite Information technology as well .

Modern technological developments covering MEMS, NANO, Biomedical etc have been a part of studies in this field of engineering only. The Department of Mechanical Engineering is established in 2011. It offers B.Tech programme with a student intake of 60

VISION:

To be regionally, nationally and internationally recognized in providing Mechanical Engineering education, leading to well qualified engineers who are innovative, immediate contributors to their profession and successful in advanced studies.

MISSION:

1. To educate, prepare and mentor students to excel as professionals.
2. To provide the facilities and environment conducive to high quality education to get diverse careers as well as research in the field of Mechanical Engineering.
3. To improve communication skills to excel in higher studies and placements.
4. To facilitate team work culture and improve the social standards and quality of life of graduates.
5. To improve the research activities of the students

Objectives:

Before the production of a vehicle, automotive manufacturers ensure that each body component strikes the ideal balance between a vehicle's aerodynamic performance, aesthetics, and ergonomics. This is accomplished through an automotive design process that considers all factors.

Outcomes:

The course is designed to provide understanding of fundamental automobile concepts and components, including different chassis types, engines, transmissions, brakes, steering, suspension, electrical systems, and modern developments in automobiles.

About college

Eswar College of Engineering was established during the academic year 2008 -09 and sponsored by Shaik Dada Saheb Charitable Trust, with a vision of imparting futuristic technical education and in still high patterns of discipline in order to set global standards and making the students technologically superior and ethically strong. The young and dynamic promoters have selected this rural area with lot of foresight. The Institution is spread over 22 acres of lush green landscape and located at 5th km stone on the Narasaraopet- Chilakaluripeta Road. The Institution offers the UG Courses B. Tech-CIVIL, EEE, ECE, CSE, AME, ME, PG Courses M. Tech-PE&ED, DECS, CSE, CAD/CAM & MBA. The tourist places nearby are Kotappakonda, Amaravathi, Surylanka Beach. Eswar College of Engineering is having MOU with International Institute of Information Technology IIIT- Hyderabad and introduced CIT Programme for students Digital Class facility is also provided in association with Manipal K12, Bangalore, the very first college in Andhra Pradesh.

About department

Automobile Engineering is a core engineering discipline, the concepts of which are prerequisite for every other branch of engineering as rightly reflected by the curriculum framed by reputed universities all over the world. This is precisely the reason for many Automobile engineers to occupy responsible positions practically in every field of activity - Space, Aviation, Power, Defense and of-course the elite Information technology as well.

Modern technological developments covering MEMS, NANO, Biomedical etc have been a part of studies in this field of engineering only. The Department of Automobile Engineering is established in 2011. It offers B.Tech programme with a student intake of 60

Vision

To be regionally, nationally and internationally recognized in providing Automobile Engineering education, leading to well qualified engineers who are innovative, immediate contributors to their profession and successful in advanced studies.

Mission

1. To educate, prepare and mentor students to excel as professionals.
2. To provide the facilities and environment conducive to high quality education to get diverse careers as well as research in the field of Automobile Engineering.
3. To improve communication skills to excel in higher studies and placements.
4. To facilitate team work culture and improve the social standards and quality of life of graduates.

About college

Eswar College of Engineering was established during the academic year 2008 -09 and sponsored by Shaik Dada Saheb Charitable Trust, with a vision of imparting futuristic technical education and instill high patterns of discipline in order to set global standards and making the student technologically superior and ethically strong. They young and dynamic promoters have selected this rural area with lot of foresight. The Institution is spread over 22 acres of lush Green land scape and located at 5th km stone on the Narasaraopet-Chilakaluripet Road. The Institution offers the UG Courses B.Tech-CIVIL, EEE, ECE, CSE, AME, ME, PG Courses M.Tech-PE&ED, DECS, CSE, CAD/CAM & MBA. The tourist places near by are Kotappakonda, Amaravathi, Surylanka Beach. Eswar College of Engineering is having MOU with International Institute of Information Technology IIT-Hyderabad and introduced CIT Programme for students Digital Class facility is also provided in association with Manipal K12, Bangalore, every first college in Andhra Pradesh

About department

ESWAR has a highly-specialised Computer Science Department that exposes students to a broad range of subjects involving advanced computer engineering and its application in industry. The curriculum relies heavily on industry-academia interaction and responds to the current needs and trends in the global ware industry. The Department of Computer Science Engineering is established in 2008. It offers B.Tech programme with a student intake of 60.

Vision:

To excel in the emerging fields of computer science of engineering by conducting cutting-edge research, advocating for ethical principles, and addressing societal needs

Mission:

To provide strong fundamentals and technical skills through effective teaching learning Methodologies, disseminate knowledge by organizing seminars, field visits and workshops.
