Participatory Learning:

Participatory learning in engineering colleges involves engaging students actively in the learning process, fostering collaboration, critical thinking, and practical application of engineering principles.

In this type of learning, students participate in various activities such as seminar, group discussion, wall papers, projects, and the skill based add on courses. Students are encouraged to participate in activities where they can use their specialized technical or management skills, such as

➢ Annual Tech Fest – It is organized every year for engineering students where selected Projects are displayed at the larger platform.

➢ Management Fest- This is organized every year by the management students in which students from different colleges participate and learn from each other.

➢ Annual cultural program – This is organized every year for the students of the college to give a vent to their creativity.

➢ Regular Quizzes- Quizzes are organized for student participation at intra or inter college level.

➢ Seminar Presentation – Students develop technical skills while presenting papers in seminars.

➢ Presentation and publishing of papers in conferences and journals - The objective is to give them exposure to learn and imbibe new skills.
➢ MOOC Programs (NPTEL, ICT-IITK etc.)

➢ College Fest- This is organized every year by the management students in whichstudents from different colleges participated and learnt from each other.
